

Mad Labs

Fill in the fun! Grab a labmate and ask for answers to the blanks. Enjoy the results.

A typical lab day at the University of

city or state your lab is in

Remove your body part cells from the liquid favorite beverage cooler and plate in a

noun

until the cells thaw.

Once thawed, re-suspend the food adjective cells in a tube with lab director's name 's

special media that seems to work for everyone but me.

Using a something handheld, pipet # of texts you send in a day unit of measurement into a plate

labeled, " favorite sports team." Incubate your cells in the kitchen appliance

while making sure not to disturb lab bench partner's name 's body part sample.

Analyze your plate on the type of car lab equipment you have in the lab and report

your finding to royal title lab director's name .

Leave the lab at time you go to lunch and go back to your type of dwelling where you fall

asleep writing a grant to get funding for your type of exercise or hobby research.
