Revision A

Pre-Conditions

- The instrument should not be in use and no active samples are running at the time of software install
- Download the installer and save it on the USB drive
- Insert the USB drive into the front port of the instrument

Upgrade Steps

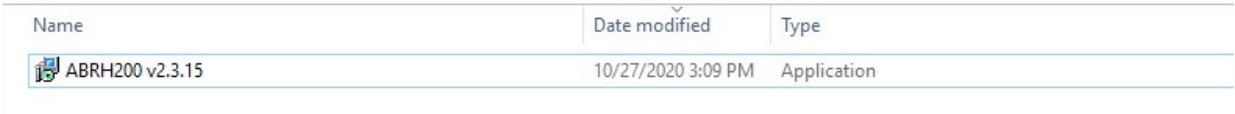
1. Download the installer from the below link:

http://downloads.thermofisher.com/ABRH200+v2.3.15.exe

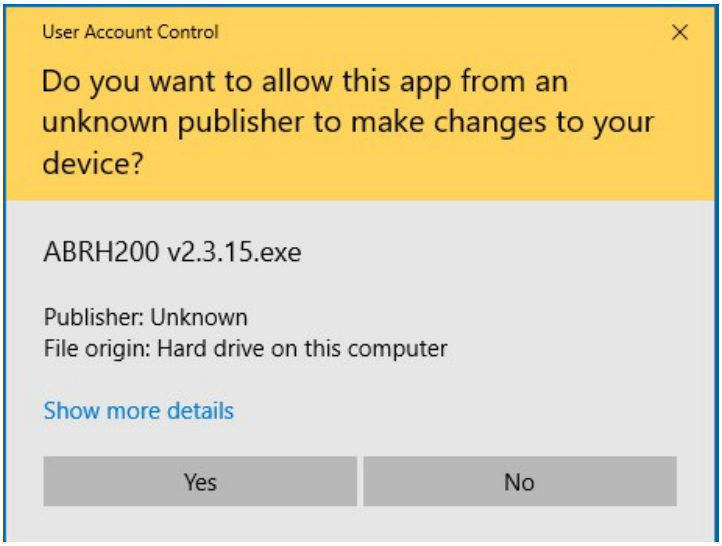
If the direct download to the instrument is not possible, then you can download it on your laptop and copy it to an external USB drive.

Connect the USB drive to the front port of the instrument.

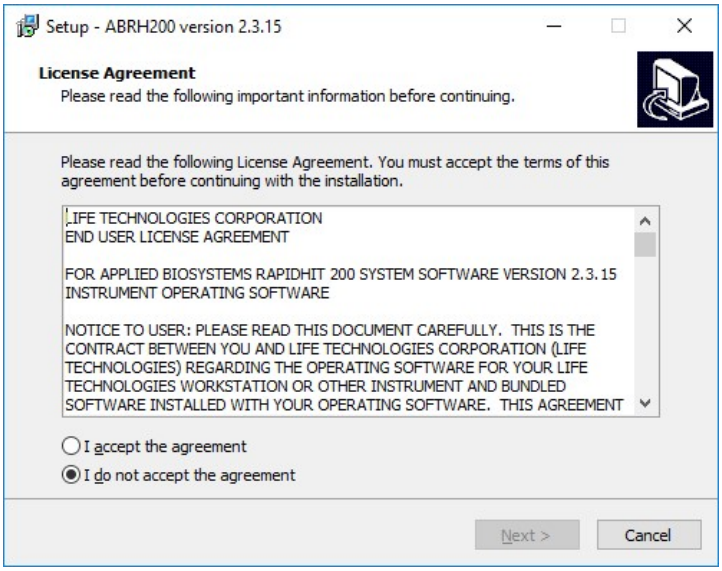
2. Copy the downloaded binary from the USB drive to the Instrument's temp directory – C:\temp



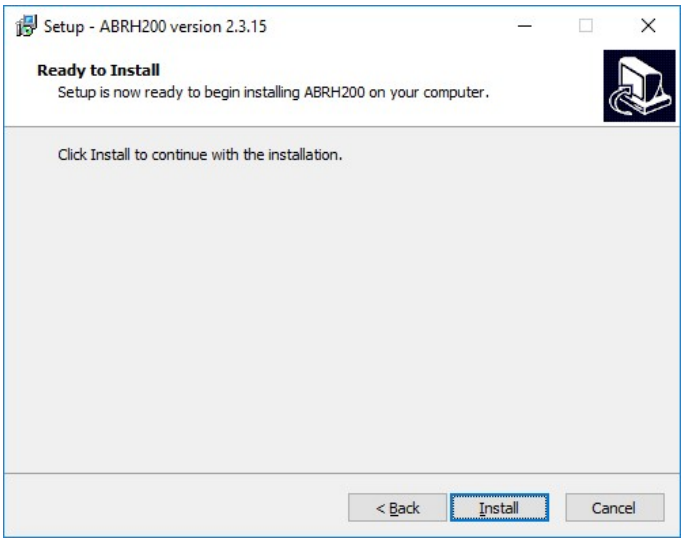
3. When ready to install double-click on the installer. Upon launching the installation, a UAC window will be shown as below. Click 'Yes' on this window to continue with the installation.



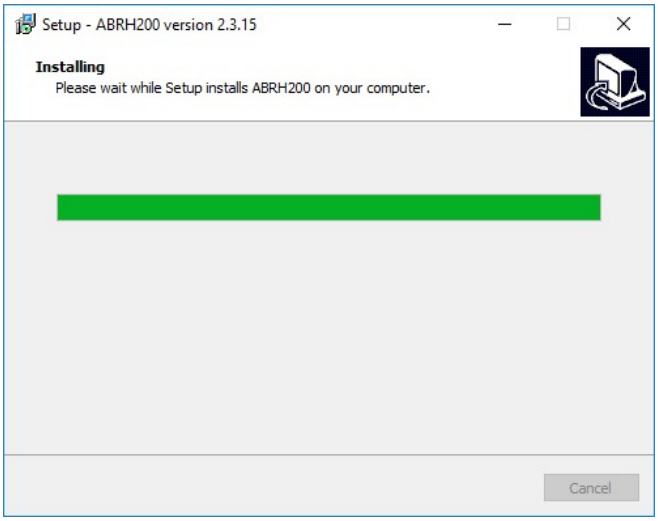
4. The EULA window will be presented next. Read the EULA agreement and select the 'I accept the agreement' option, and when ready click 'Next' button to continue.



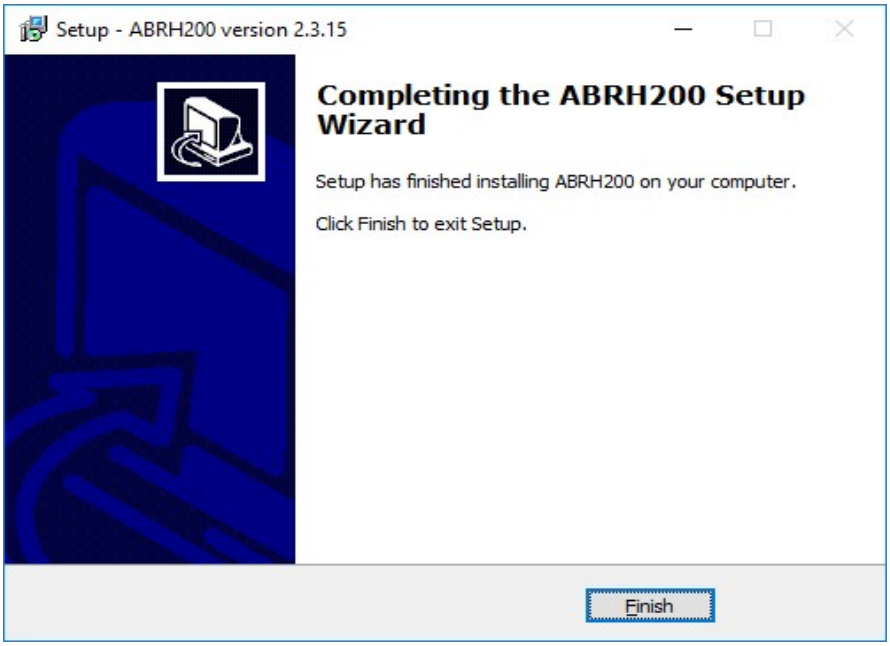
5. The installation is ready to start. Click on the 'Next' button on this window.



6. The installation process could take anywhere between 3-4 minutes, and this window will be shown until the process is going. Please do not minimize or close this window.

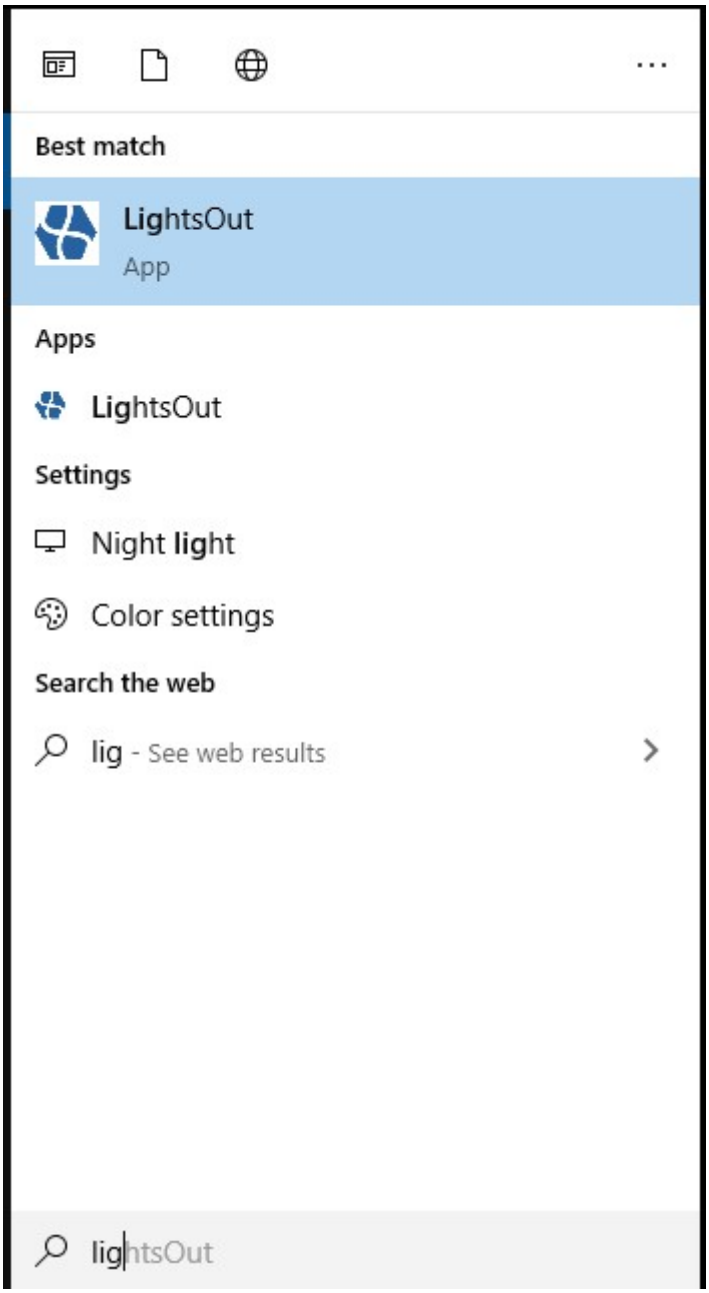


7. Once the installation is complete, a Completion window is shown. Click on the 'Finish' button to acknowledge the completion of the upgrade process.



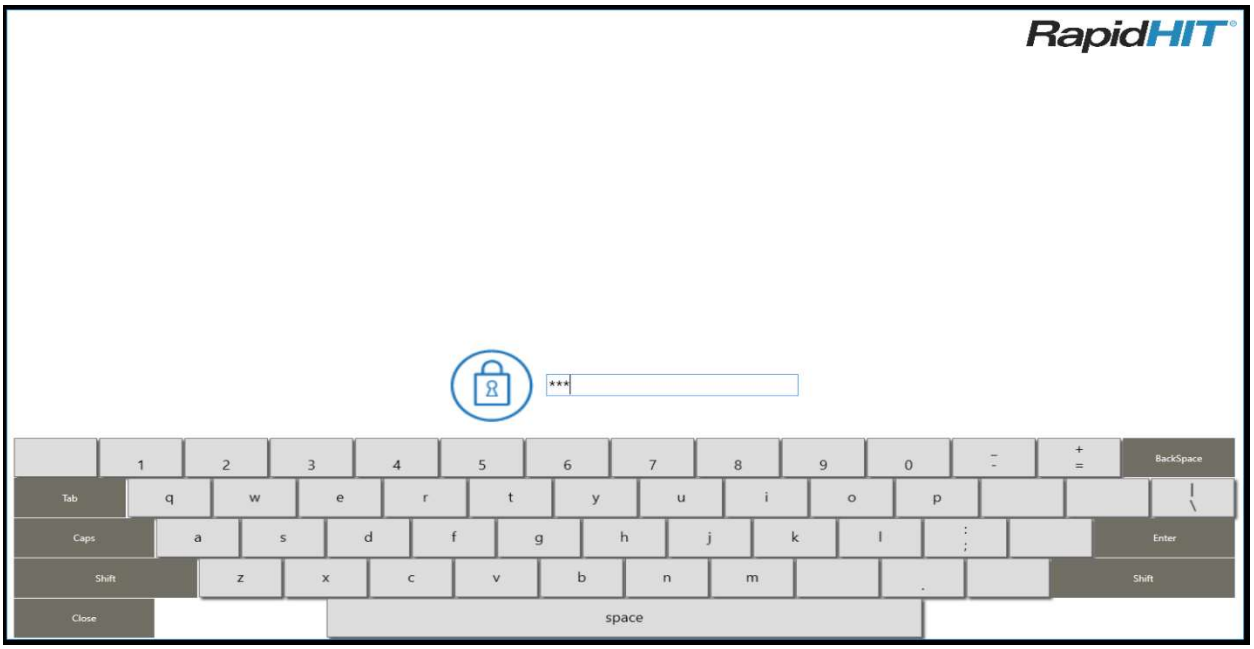
Starting LightsOut

Press ‘Windows’ key on your keyboard/on-screen keyboard, and type ‘LightsOut’ in the search box. Once the search filters the ‘LightsOut’ application, click on it to launch LightsOut.



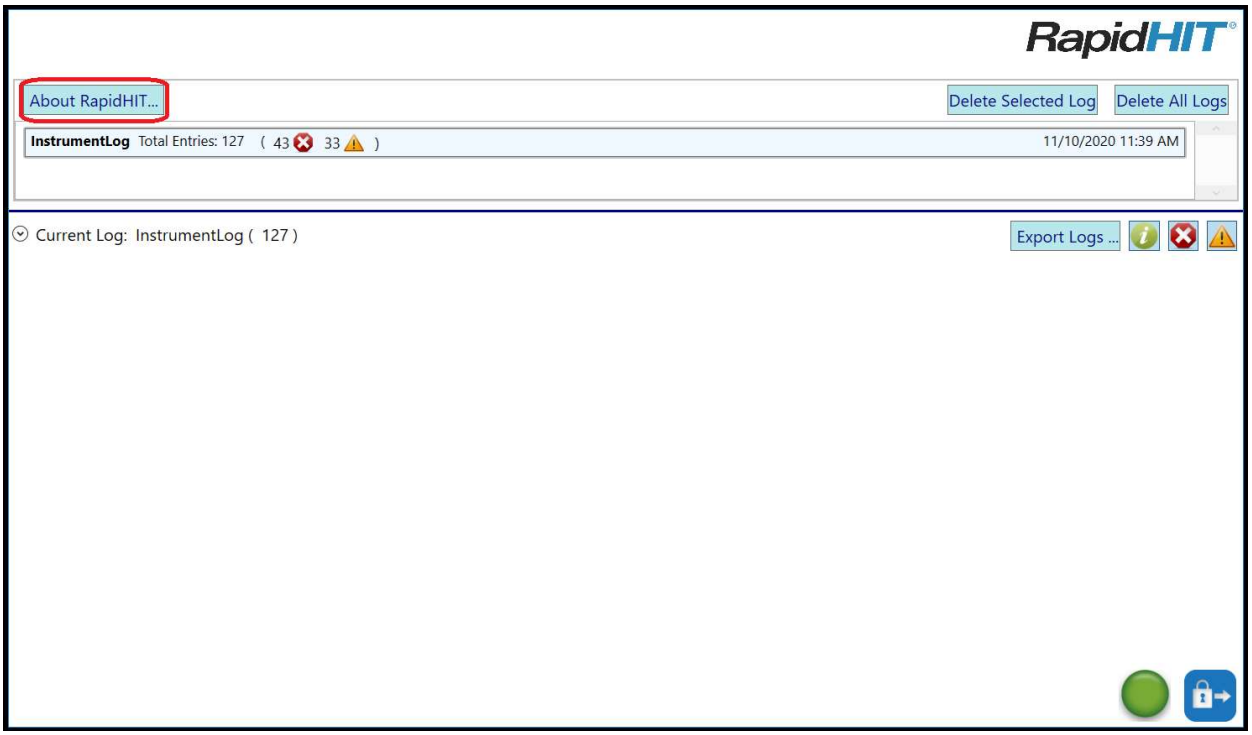
Checking the Version of LightsOut on the Instrument

1. Once LightsOut is launched, you can login with your existing credentials. The password that you have before the install will still continue to work.

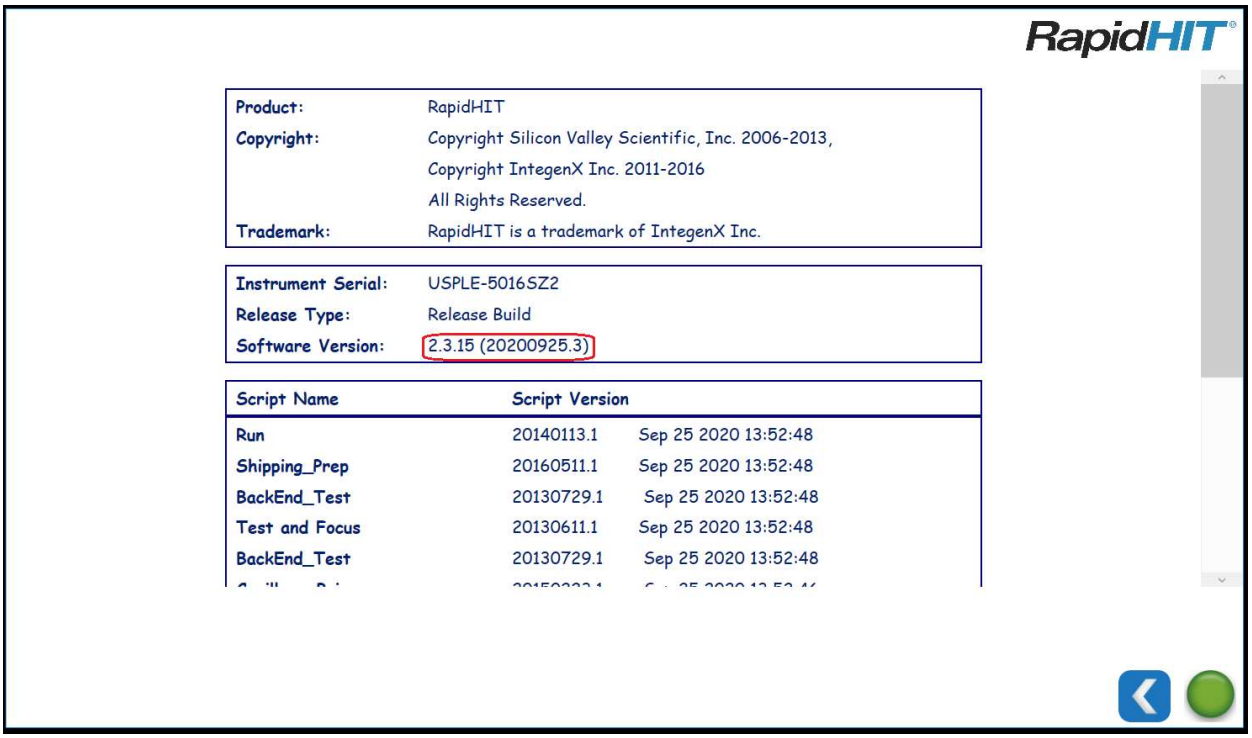


2. Upon Login, click on the button in the lower left corner of the LightsOut window, as highlighted below.

3. Next click on the button, highlighted below to locate its position on the window.



4. You can see the current installed version of the software, as highlighted below, to confirm that the Instrument is running the latest v2.3.15.



Legal Statements

For Forensics, Human Identification or Paternity/Kinship Use Only. Not for use in diagnostic procedures.

Notice to Purchase: Disclaimer of License

Purchase of this software product alone does not imply any license under any process, instrument or other apparatus, system, composition, reagent or kit rights under patent claims owned or otherwise controlled by Thermo Fisher Scientific, either expressly, or by estoppel.
