

ALFAAA10394

# 2-Thiopheneacetic acid

# SECTION 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

| 产品说明:                      | 噻吩-2-乙酸   |
|----------------------------|---|
| Product Description:       | 2-Thiopheneacetic acid  |
| Cat No. :                  | <b>A10394</b>   |
| Synonyms                   | 2-Thenylacetic acid   |
| CAS No                     | 1918-77-0   |
| Molecular Formula          | C6 H6 O2 S  |
| Supplier                   | Avocado Research Chemicals Ltd.<br>(Part of Thermo Fisher Scientific)<br>Shore Road, Heysham<br>Lancashire, LA3 2XY,<br>United Kingdom<br>Office Tel: +44 (0) 1524 850506<br>Office Fax: +44 (0) 1524 850608  |
| Emergency Telephone Number | For information <b>US</b> call: 001-800-227-6701 / <b>Europe</b> call: +32 14 57 52 11<br>Emergency Number <b>US</b> :001-201-796-7100 / <b>Europe:</b> +32 14 57 52 99<br><b>CHEMTREC</b> Tel. No. <b>US</b> :001-800-424-9300 / <b>Europe:</b> 001-703-527-3887 |
| E-mail address             | begel.sdsdesk@thermofisher.com  |
| Recommended Use            | Laboratory chemicals.   |
| Uses advised against       | No Information available  |

# **SECTION 2. HAZARD IDENTIFICATION**

| <b>Physical State</b> |
|-----------------------|
| Powder Solid          |

Appearance Light brown Odor No information available

Emergency Overview

Causes severe skin burns and eye damage.

## Classification of the substance or mixture

| Skin Corrosion/Irritation         | Category 1 B |
|-----------------------------------|--------------|
| Serious Eye Damage/Eye Irritation | Category 1   |

# Label Elements

Signal Word

Danger

**Hazard Statements** 

# 2-Thiopheneacetic acid

H314 - Causes severe skin burns and eye damage

## Precautionary Statements

## Prevention

P264 - Wash face, hands and any exposed skin thoroughly after handling

P280 - Wear protective gloves/protective clothing/eye protection/face protection

## Response

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

P301 + P330 + P331 - IF SWALLOWED: rinse mouth. Do NOT induce vomiting

P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower

P304 + P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing

P310 - Immediately call a POISON CENTER or doctor

P362 + P364 - Take off contaminated clothing and wash it before reuse

#### Storage

P403 - Store in a well-ventilated place

Disposal

P501 - Dispose of contents/ container to an approved waste disposal plant

# Physical and Chemical Hazards

None identified.

Health Hazards

Corrosive. Causes skin and eye burns.

**Environmental hazards** 

Contains no substances known to be hazardous to the environment or not degradable in waste water treatment plants.

This product does not contain any known or suspected endocrine disruptors.

# SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

| Component              | CAS No    | Weight % |
|------------------------|-----------|----------|
| 2-Thiopheneacetic acid | 1918-77-0 | 98       |

# SECTION 4. FIRST AID MEASURES

## Eye Contact

Immediate medical attention is required. Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.

## Skin Contact

Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Immediate medical attention is required.

## Inhalation

Remove from exposure, lie down. Remove to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Immediate medical attention is required.

## Ingestion

Do NOT induce vomiting. Call a physician immediately.

## Most important symptoms and effects

Causes burns by all exposure routes. Product is a corrosive material. Use of gastric lavage or emesis is contraindicated. Possible perforation of stomach or esophagus should be investigated: Ingestion causes severe swelling, severe damage to the delicate tissue and danger of perforation

## Self-Protection of the First Aider

Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination.

## Notes to Physician

2-Thiopheneacetic acid

Treat symptomatically.

# **SECTION 5. FIRE-FIGHTING MEASURES**

## Suitable Extinguishing Media

Carbon dioxide (CO<sub>2</sub>). Dry chemical. Chemical foam.

## Extinguishing media which must not be used for safety reasons

No information available.

## **Specific Hazards Arising from the Chemical**

Thermal decomposition can lead to release of irritating gases and vapors.

#### **Protective Equipment and Precautions for Firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

# **SECTION 6. ACCIDENTAL RELEASE MEASURES**

#### Personal Precautions

Ensure adequate ventilation.

## Environmental Precautions

See Section 12 for additional Ecological Information.

#### Methods for Containment and Clean Up

Sweep up and shovel into suitable containers for disposal. Do not let this chemical enter the environment.

Refer to protective measures listed in Sections 8 and 13.

# **SECTION 7. HANDLING AND STORAGE**

#### Handling

Do not breathe dust. Do not breathe mist/vapors/spray. Do not get in eyes, on skin, or on clothing. Do not ingest. If swallowed then seek immediate medical assistance. Handle product only in closed system or provide appropriate exhaust ventilation.

#### Storage

Keep in a dry, cool and well-ventilated place. Keep container tightly closed. Corrosives area.

## Specific Use(s)

Use in laboratories

# SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

## **Control Parameters**

## Exposure Controls

## Engineering Measures

Ensure adequate ventilation, especially in confined areas. Ensure that eyewash stations and safety showers are close to the workstation location. Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source.

## Personal protective equipment

**Eye Protection**

| Materials to avoid                              | Bases. Strong oxidizing agents.                        |
|   |  |

Hazardous Decomposition Products Carbon monoxide (CO). Carbon dioxide (CO<sub>2</sub>). Sulfur oxides.

# SECTION 11. TOXICOLOGICAL INFORMATION

| Product Information  | No acute toxicity information is available for this product  |
|--|--|
| (a) acute toxicity;  |  |
| (b) skin corrosion/irritation;                               | No data available  |
| (c) serious eye damage/irritation;                           | No data available  |
| (d) respiratory or skin sensitization<br>Respiratory<br>Skin | No data available<br>No data available   |
| (e) germ cell mutagenicity;                                  | No data available  |
| (f) carcinogenicity;   | No data available  |
|  | There are no known carcinogenic chemicals in this product  |
|  |  |
| (g) reproductive toxicity;                                   | No data available  |
| (h) STOT-single exposure;                                    | No data available  |
| (i) STOT-repeated exposure;                                  | No data available  |
| Target Organs  | No information available.  |
| (j) aspiration hazard;                                       | No data available  |
| Other Adverse Effects  | The toxicological properties have not been fully investigated.   |
| Symptoms / effects,both acute and delayed                    | Product is a corrosive material. Use of gastric lavage or emesis is contraindicated.<br>Possible perforation of stomach or esophagus should be investigated: Ingestion causes<br>severe swelling, severe damage to the delicate tissue and danger of perforation |

# **SECTION 12. ECOLOGICAL INFORMATION**

| Ecotoxicity effects  | Do not empty into drains.   |  |
|--|---|--|
| Persistence and Degradability  | No information available  |  |
| Bioaccumulative Potential  | No information available  |  |
| Mobility in soil   | No information available  |  |
| Endocrine Disruptor Information<br>Persistent Organic Pollutant<br>Ozone Depletion Potential | This product does not contain any known or suspected endocrine disruptors<br>This product does not contain any known or suspected substance<br>This product does not contain any known or suspected substance               |  |
|  | SECTION 13. DISPOSAL CONSIDERATIONS   |  |
| Waste from Residues/Unused<br>Products   | Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Consult local, regional, and national hazardous waste regulations to ensure complete and accurate classification. |  |
| Contaminated Packaging   | Empty remaining contents. Dispose of in accordance with local regulations. Do not re-use empty containers.  |  |
| Other Information  | Waste codes should be assigned by the user based on the application for which the product was used.   |  |
