

ALFAAA17660

# N,N,N'-Trimethyl-1,3-propanediamine

## SECTION 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

| 产品说明:                      | N,N,N'-三甲基-1,3-丙二胺  |
|----------------------------|---|
| Product Description:       | N,N,N'-Trimethyl-1,3-propanediamine   |
| Cat No. :                  | <b>A17660</b>   |
| CAS No                     | 4543-96-8   |
| Supplier                   | Avocado Research Chemicals Ltd.<br>(Part of Thermo Fisher Scientific)<br>Shore Road, Heysham<br>Lancashire, LA3 2XY,<br>United Kingdom<br>Office Tel: +44 (0) 1524 850506<br>Office Fax: +44 (0) 1524 850608  |

| E-mail address             | begel.sdsdesk@thermofisher.com  |
| Recommended Use            | Laboratory chemicals.   |
| Uses advised against       | No Information available  |

## **SECTION 2. HAZARD IDENTIFICATION**

| Physical State                            | Appearance  | Odor                     |
|---|---|--------------------------|
| Liquid                                    | Colorless   | No information available |
| Flammable liquid and vapor. Harmful if sw | <b>Emergency Overview</b><br>vallowed. Harmful in contact with skin. C<br>Harmful if inhaled. |                          |

### Classification of the substance or mixture

| Flammable liquids.                 | Category 3   |
|------------------------------------|--------------|
| Acute Oral Toxicity                | Category 4   |
| Acute Dermal Toxicity              | Category 4   |
| Acute Inhalation Toxicity - Vapors | Category 4   |
| Skin Corrosion/Irritation          | Category 1 B |
| Serious Eye Damage/Eye Irritation  | Category 1   |

### Label Elements

## N,N,N'-Trimethyl-1,3-propanediamine

### Signal Word

Danger

### **Hazard Statements**

H226 - Flammable liquid and vapor

H314 - Causes severe skin burns and eye damage

H302 + H312 + H332 - Harmful if swallowed, in contact with skin or if inhaled

### **Precautionary Statements**

### Prevention

P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking

P240 - Ground and bond container and receiving equipment

P242 - Use non-sparking tools

P243 - Take action to prevent static discharges

P264 - Wash face, hands and any exposed skin thoroughly after handling

P270 - Do not eat, drink or smoke when using this product

P271 - Use only outdoors or in a well-ventilated area

P280 - Wear protective gloves/protective clothing/eye protection/face protection

### Response

P370 + P378 - In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish

P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower

P304 + P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to

do. Continue rinsing

P310 - Immediately call a POISON CENTER or doctor

P330 - Rinse mouth

P331 - Do NOT induce vomiting

P362 + P364 - Take off contaminated clothing and wash it before reuse

Storage

P403 + P233 - Store in a well-ventilated place. Keep container tightly closed

Disposal

P501 - Dispose of contents/ container to an approved waste disposal plant

### Physical and Chemical Hazards

Flammable liquid. Vapors may cause flash fire or explosion.

### Health Hazards

Harmful if swallowed. Harmful in contact with skin. Corrosive. Causes skin and eye burns. Harmful if inhaled.

### **Environmental hazards**

Contains no substances known to be hazardous to the environment or not degradable in waste water treatment plants.

This product does not contain any known or suspected endocrine disruptors.

### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

| Component                             | CAS No    | Weight % |
|---------------------------------------|-----------|----------|
| 1,3-Propanediamine, N,N,N'-trimethyl- | 4543-96-8 | <100     |
| Potassium hydroxide                   | 1310-58-3 | <0.2     |

### SECTION 4. FIRST AID MEASURES

### General Advice

Show this safety data sheet to the doctor in attendance. Immediate medical attention is required.

### Eye Contact

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Immediate medical attention is required.

### Skin Contact

Wash off immediately with plenty of water for at least 15 minutes. Remove and wash contaminated clothing and gloves, including the inside, before re-use. Call a physician immediately.

### N,N,N'-Trimethyl-1,3-propanediamine

### Inhalation

If not breathing, give artificial respiration. Remove from exposure, lie down. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Call a physician immediately.

### Ingestion

Do NOT induce vomiting. Clean mouth with water. Never give anything by mouth to an unconscious person. Call a physician immediately.

### Most important symptoms and effects

Causes burns by all exposure routes. Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting: Product is a corrosive material. Use of gastric lavage or emesis is contraindicated. Possible perforation of stomach or esophagus should be investigated: Ingestion causes severe swelling, severe damage to the delicate tissue and danger of perforation

### Self-Protection of the First Aider

Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination.

### Notes to Physician

Treat symptomatically.

### **SECTION 5. FIRE-FIGHTING MEASURES**

### Suitable Extinguishing Media

CO<sub>2</sub>, dry chemical, dry sand, alcohol-resistant foam. Water mist may be used to cool closed containers.

### Extinguishing media which must not be used for safety reasons

No information available.

### **Specific Hazards Arising from the Chemical**

Thermal decomposition can lead to release of irritating gases and vapors. The product causes burns of eyes, skin and mucous membranes. Flammable. Containers may explode when heated. Vapors may form explosive mixtures with air. Vapors may travel to source of ignition and flash back.

### **Protective Equipment and Precautions for Firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Thermal decomposition can lead to release of irritating gases and vapors.

## **SECTION 6. ACCIDENTAL RELEASE MEASURES**

### **Personal Precautions**

Ensure adequate ventilation. Use personal protective equipment as required. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Remove all sources of ignition. Take precautionary measures against static discharges.

### **Environmental Precautions**

Should not be released into the environment.

### Methods for Containment and Clean Up

Soak up with inert absorbent material. Keep in suitable, closed containers for disposal. Remove all sources of ignition. Use spark-proof tools and explosion-proof equipment.

Refer to protective measures listed in Sections 8 and 13.

### **SECTION 7. HANDLING AND STORAGE**

### Handling

Wear personal protective equipment/face protection. Do not get in eyes, on skin, or on clothing. Use only under a chemical fume

### N,N,N'-Trimethyl-1,3-propanediamine

hood. Do not breathe mist/vapors/spray. Do not ingest. If swallowed then seek immediate medical assistance. Keep away from open flames, hot surfaces and sources of ignition. Use only non-sparking tools. Take precautionary measures against static discharges.

### Storage

Corrosives area. Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from heat, sparks and flame.

### Specific Use(s)

Use in laboratories

### **SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

### **Control Parameters**

| Component           | China                        | Taiwan | Thailand                     | Hong Kong                    |

|                     |                              | mg/m³                |                              |                                |                |

<u>Legend</u>

ACGIH - American Conference of Governmental Industrial Hygienists OSHA - Occupational Safety and Health Administration NIOSH: NIOSH - National Institute for Occupational Safety and Health

### Monitoring methods

BS EN 14042:2003 Title Identifier: Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents. MDHS70 General methods for sampling airborne gases and vapours MDHS 88 Volatile organic compounds in air. Laboratory method using diffusive samplers, solvent desorption and gas chromatography MDHS 96 Volatile organic compounds in air - Laboratory method using pumped solid sorbent tubes, solvent desorption and gas chromatography

### **Exposure Controls**

### **Engineering Measures**

Ensure that eyewash stations and safety showers are close to the workstation location. Ensure adequate ventilation, especially in confined areas. Use explosion-proof electrical/ventilating/lighting equipment. Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source.

### Personal protective equipment

| Eye Protection  | Goggles (European standard - EN 166)                      |                      |                       |   |
|---|---|----------------------|-----------------------|---|
| Hand Protection   | Protective gloves   |                      |                       |   |
| Glove material<br>Natural rubber<br>Nitrile rubber<br>Neoprene<br>PVC | Breakthrough time<br>See manufacturers<br>recommendations | Glove thickness<br>- | EU standard<br>EN 374 | Glove comments<br>(minimum requirement) |

Inspect gloves before use.

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. (Refer to manufacturer/supplier for information)

Ensure gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion.

Remove gloves with care avoiding skin contamination.

| Skin and body protection      | Long sleeved clothing   |
|-------------------------------|---|
| <b>Respiratory Protection</b> | When workers are facing concentrations above the exposure limit they must use |

N,N,N'-Trimethyl-1,3-propanediamine

|   | appropriate certified respirators.<br>To protect the wearer, respiratory protective equipment must be the correct fit and be used<br>and maintained properly  |
|---|---|
| Large scale/emergency use                                 | Use a NIOSH/MSHA or European Standard EN 136 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced <b>Recommended Filter type:</b> Particulates filter conforming to EN 143 Ammonia and organic ammonia derivatives filter Type K Green conforming to EN14387              |
| Small scale/Laboratory use                                | Use a NIOSH/MSHA or European Standard EN 149:2001 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.<br><b>Recommended half mask:-</b> Valve filtering: EN405; or; Half mask: EN140; plus filter, EN 141<br>When RPE is used a face piece Fit Test should be conducted |
| Hygiene Measures  | Handle in accordance with good industrial hygiene and safety practice.  |
| Environmental exposure controls No information available. |   |

## **SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES**

## SECTION 10. STABILITY AND REACTIVITY

Stability

Stable under normal conditions.

Hazardous Reactions Hazardous Polymerization None under normal processing. No information available.

N,N,N'-Trimethyl-1,3-propanediamine

**Conditions to Avoid** 

**bid** Keep away from open flames, hot surfaces and sources of ignition.

Materials to avoid Acids. Strong oxidizing agents.

Hazardous Decomposition Products Carbon monoxide (CO). Carbon dioxide (CO<sub>2</sub>). Nitrogen oxides (NOx).

## SECTION 11. TOXICOLOGICAL INFORMATION

### **Product Information**

#### (a) acute toxicity; Toxicology data for the components

| Component           | LD50 Oral                  | LD50 Dermal | LC50 Inhalation |
|---------------------|----------------------------|-------------|-----------------|
| Potassium hydroxide | LD50 = 333-384 mg/kg (Rat) |             |                 |

(b) skin corrosion/irritation; Category 1 B

(c) serious eye damage/irritation; Category 1

## (d) respiratory or skin sensitization;

| Respiratory | No data available |
|-------------|-------------------|
| Skin        | No data available |

| Component                                 | Test method  | Test species   | Study result    |  |  |
|---|--|----------------|-----------------|--|--|
| Potassium hydroxide<br>1310-58-3 ( <0.2 ) | OECD Test Guideline 406  | guinea pig     | non-sensitising |  |  |
| (e) germ cell mutagenicity;               | No data available  |                |                 |  |  |
| (f) carcinogenicity;                      | No data available  |                |                 |  |  |
|   | There are no known carcinogenic chemicals in this product  |                |                 |  |  |
|   |  |                |                 |  |  |
| (g) reproductive toxicity;                | No data available  |                |                 |  |  |
| (h) STOT-single exposure;                 | No data available  |                |                 |  |  |
| (i) STOT-repeated exposure;               | No data available  |                |                 |  |  |
| Target Organs                             | No information available.  |                |                 |  |  |
| (j) aspiration hazard;                    | No data available  |                |                 |  |  |
| Symptoms / effects,both acute and delayed | d Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting:<br>Product is a corrosive material. Use of gastric lavage or emesis is contraindicated.<br>Possible perforation of stomach or esophagus should be investigated: Ingestion causes<br>severe swelling, severe damage to the delicate tissue and danger of perforation |                |                 |  |  |
|   | SECTION 12. ECOLOGIC   | AL INFORMATION |                 |  |  |

**Ecotoxicity effects** Contains no substances known to be hazardous to the environment or that are not degradable in waste water treatment plants.

## N,N,N'-Trimethyl-1,3-propanediamine

| Persistence and Degradability  | No information available   |                               |  |  |  |
|--|--|-------------------------------|--|--|--|
| Bioaccumulative Potential  | No information available   |                               |  |  |  |

| Endocrine Disruptor Information<br>Persistent Organic Pollutant<br>Ozone Depletion Potential                         | This product does not contain any known or suspected endocrine disruptors<br>This product does not contain any known or suspected substance<br>This product does not contain any known or suspected substance  |                               |  |  |  |
|  | SECTION 13. DISPOSAL CONSIDERAT  | TIONS                         |  |  |  |
| Waste from Residues/Unused<br>Products   | Waste is classified as hazardous. Dispose of on waste and hazardous waste. Dispose of in   |                               |  |  |  |
| Contaminated Packaging   | Dispose of this container to hazardous or special waste collection point. Empty containers retain product residue, (liquid and/or vapor), and can be dangerous. Keep product and empty container away from heat and sources of ignition.   |                               |  |  |  |
| Other Information  | Waste codes should be assigned by the user based on the application for which the product was used. Do not flush to sewer. Can be landfilled or incinerated, when in compliance with local regulations. Do not empty into drains. Large amounts will affect pH and harm aquatic organisms. |                               |  |  |  |
|  | SECTION 14. TRANSPORT INFORMA  | TION                          |  |  |  |

### N,N,N'-Trimethyl-1,3-propanediamine

### **Special Precautions for User**

No special precautions required

### **SECTION 15. REGULATORY INFORMATION**

### International Inventories

X = listed, China (IECSC), Europe (EINECS/ELINCS/NLP), U.S.A. (TSCA), Canada (DSL/NDSL), Philippines (PICCS), Japan (ENCS), Japan (ISHL), Australia (AICS), Korea (KECL).

### **National Regulations**

## **SECTION 16. OTHER INFORMATION**

**Prepared By Revision Date Revision Summary**  Health, Safety and Environmental Department 12-May-2024 New emergency telephone response service provider.

### **Training Advice**

Chemical hazard awareness training, incorporating labelling, Safety Data Sheets (SDS), Personal Protective Equipment (PPE) and hygiene.

Use of personal protective equipment, covering appropriate selection, compatibility, breakthrough thresholds, care, maintenance, fit and standards.

First aid for chemical exposure, including the use of eye wash and safety showers.
