ALFAAB23970

5-Aminosalicylic acid

SECTION 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

产品说明:	5-氨基水杨酸
Product Description:	5-Aminosalicylic acid
Cat No. :	B23970
Synonyms	Mesalamine; 5-Amino-2-hydroxybenzoic acid; 5-ASA
CAS No	89-57-6
Molecular Formula	C7 H7 N O3
Supplier	Avocado Research Chemicals Ltd. (Part of Thermo Fisher Scientific) Shore Road, Heysham Lancashire, LA3 2XY, United Kingdom Office Tel: +44 (0) 1524 850506 Office Fax: +44 (0) 1524 850608
Emergency Telephone Number	For information US call: 001-800-227-6701 / Europe call: +32 14 57 52 11 Emergency Number US: 001-201-796-7100 / Europe: +32 14 57 52 99 CHEMTREC Tel. No. US: 001-800-424-9300 / Europe: 001-703-527-3887
E-mail address	begel.sdsdesk@thermofisher.com
Recommended Use	Laboratory chemicals.
Uses advised against	No Information available

SECTION 2. HAZARD IDENTIFICATION

Physical State	Appearance	Odor
Powder Solid	Beige	Odorless
May be harmful if swallowed. Causes skin irr respira	Emergency Overview itation. May cause an allergic skin reaction atory irritation. Sensitivity to light. Air sens	

Classification of the substance or mixture

Acute Oral Toxicity	Category 5
Skin Corrosion/Irritation	Category 2
Serious Eye Damage/Eye Irritation	Category 2
Skin Sensitization	Category 1
Specific target organ toxicity - (single exposure)	Category 3

Label Elements

Г

5-Aminosalicylic acid

Signal Word

Warning

Hazard Statements

H303 - May be harmful if swallowed

H315 - Causes skin irritation

H317 - May cause an allergic skin reaction

H319 - Causes serious eye irritation

H335 - May cause respiratory irritation

Precautionary Statements

Prevention

P261 - Avoid breathing dust/fume/gas/mist/vapors/spray

P264 - Wash face, hands and any exposed skin thoroughly after handling

P270 - Do not eat, drink or smoke when using this product

P271 - Use only outdoors or in a well-ventilated area

P272 - Contaminated work clothing should not be allowed out of the workplace

P280 - Wear protective gloves/protective clothing/eye protection/face protection

Response

P302 + P352 - IF ON SKIN: Wash with plenty of soap and water

P304 + P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

P312 - Call a POISON CENTER or doctor if you feel unwell

P362 + P364 - Take off contaminated clothing and wash it before reuse

Storage

P403 + P233 - Store in a well-ventilated place. Keep container tightly closed

Disposal

P501 - Dispose of contents/ container to an approved waste disposal plant

Physical and Chemical Hazards

None identified.

Health Hazards

May be harmful if swallowed. Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. May cause respiratory irritation.

Environmental hazards

Contains no substances known to be hazardous to the environment or not degradable in waste water treatment plants. Will likely be mobile in the environment due to its water solubility. Is not likely mobile in the environment due its low water solubility. Spillage unlikely to penetrate soil.

This product does not contain any known or suspected endocrine disruptors.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Component	CAS No	Weight %
Benzoic acid, 5-amino-2-hydroxy-	89-57-6	>95

SECTION 4. FIRST AID MEASURES

General Advice

If symptoms persist, call a physician.

Eye Contact

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention.

Skin Contact

Wash off immediately with plenty of water for at least 15 minutes. If skin irritation persists, call a physician.

Inhalation

Remove to fresh air. If not breathing, give artificial respiration. Get medical attention if symptoms occur.

5-Aminosalicylic acid

Ingestion

Clean mouth with water and drink afterwards plenty of water. Get medical attention if symptoms occur.

Most important symptoms and effects

May cause allergic skin reaction. Symptoms of allergic reaction may include rash, itching, swelling, trouble breathing, tingling of the hands and feet, dizziness, lightheadedness, chest pain, muscle pain or flushing

Self-Protection of the First Aider

Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination.

Notes to Physician

Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Water spray. Carbon dioxide (CO 2). Dry chemical. Chemical foam.

Extinguishing media which must not be used for safety reasons

No information available.

Specific Hazards Arising from the Chemical

Thermal decomposition can lead to release of irritating gases and vapors.

Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions

Ensure adequate ventilation. Use personal protective equipment as required. Avoid dust formation.

Environmental Precautions

Should not be released into the environment.

Methods for Containment and Clean Up

Sweep up and shovel into suitable containers for disposal. Keep in suitable, closed containers for disposal.

Refer to protective measures listed in Sections 8 and 13.

SECTION 7. HANDLING AND STORAGE

Handling

Wear personal protective equipment/face protection. Ensure adequate ventilation. Do not get in eyes, on skin, or on clothing. Avoid ingestion and inhalation. Avoid dust formation.

Storage

Keep in a dry, cool and well-ventilated place. Keep container tightly closed. Protect from direct sunlight. Store under an inert atmosphere.

Specific Use(s)

Use in laboratories

5-Aminosalicylic acid

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control Parameters

Monitoring methods

BS EN 14042:2003 Title Identifier: Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents. MDHS14/3 General methods for sampling and gravimetric analysis of respirable and inhalable dust

Exposure Controls

Engineering Measures

Ensure adequate ventilation, especially in confined areas. Ensure that eyewash stations and safety showers are close to the workstation location. Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source.

Personal protective equipment

Eye Flotection Goggles (European standard - EN 100)	Eye Protection	Goggles (European standard - EN 166)
---	----------------	--------------------------------------

Hand Protection Protective gloves

Glove material Natural rubber Butyl rubber Nitrile rubber Neoprene PVC	Breakthrough time See manufacturers recommendations	Glove thickness	EU standard EN 374	Glove comments (minimum requirement)
FVC				

Inspect gloves before use.

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. (Refer to manufacturer/supplier for information)

Ensure gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion.

Remove gloves with care avoiding skin contamination.

Skin and body protection	Long sleeved clothing
Respiratory Protection	No protective equipment is needed under normal use conditions.
Large scale/emergency use	Use a NIOSH/MSHA or European Standard EN 136 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced
Small scale/Laboratory use	Maintain adequate ventilation
Hygiene Measures	Handle in accordance with good industrial hygiene and safety practice.
Environmental exposure controls	Prevent product from entering drains.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Beige
Physical State	Powder Solid
Odor	Odorless
Odor Threshold	No data available
pH	4.1

Page 4

Explosion Limits	NO data avaliable	
Vapor Pressure	No data available	
Vapor Density	Not applicable	Solid
Specific Gravity / Density	No data available	
Bulk Density	No data available	
Water Solubility	0.84 g/L (20°C)	
Solubility in other solvents	No information available	
Partition Coefficient (n-octanol/wat	ter)	
Autoignition Temperature	Not applicable	
Decomposition Temperature	280 °C	
Viscosity	Not applicable	Solid
Explosive Properties	No information available	
Oxidizing Properties	No information available	
Molecular Formula Molecular Weight	C7 H7 N O3 153.14	

SECTION 10. STABILITY AND REACTIVITY

Stability	Air sensitive. Light sensitive.
Hazardous Reactions Hazardous Polymerization	None under normal processing. Hazardous polymerization does not occur.
Conditions to Avoid	Avoid dust formation. Temperatures above 30°C. Exposure to air. Exposure to light. Incompatible products.
Materials to avoid	Acids. Strong oxidizing agents. Acid anhydrides. Acid chlorides. Metals. Chloroformates.

Hazardous Decomposition Products Nitrogen oxides (NOx). Carbon monoxide (CO). Carbon dioxide (CO2).

SECTION 11. TOXICOLOGICAL INFORMATION

Product Information

(a) acute toxicity;

Component	LD50 Oral	LD50 Dermal	LC50 Inhalation	
Benzoic acid, 5-amino-2-hydroxy-	LD50 = 2800 mg/kg (Rat)	LD50 > 5000 mg/kg (Rabbit)		
(b) skin corrosion/irritation;	Category 2			
(c) serious eye damage/irritation;	Category 2			

(d) respiratory or skin sensitization;
RespiratoryNo data available
Category 1SkinCategory 1

May cause sensitization by skin contact

5-Aminosalicylic acid

	5-Ammosancync aciu
(e) germ cell mutagenicity;	No data available
	Not mutagenic in AMES Test
(f) carcinogenicity;	No data available
	There are no known carcinogenic chemicals in this product
(g) reproductive toxicity;	No data available
(h) STOT-single exposure;	Category 3
Results / Target organs	Respiratory system
(i) STOT-repeated exposure;	No data available
Target Organs	No information available.
(j) aspiration hazard;	Not applicable Solid
Other Adverse Effects	The toxicological properties have not been fully investigated.
Symptoms / effects,both acute and	Symptoms of allergic reaction may include rash, itching, swelling, trouble breathing, tingling
delayed	of the hands and feet, dizziness, lightheadedness, chest pain, muscle pain or flushing
	SECTION 12. ECOLOGICAL INFORMATION
Ecotoxicity effects	Do not empty into drains. Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment. The product contains following substances which are hazardous for the environment.
Ecotoxicity effects Persistence and Degradability Persistence Degradation in sewage treatment plant	effects in the aquatic environment. The product contains following substances which are
Persistence and Degradability Persistence Degradation in sewage	effects in the aquatic environment. The product contains following substances which are hazardous for the environment. Not readily biodegradable Persistence is unlikely, based on information available, Insoluble in water. Contains substances known to be hazardous to the environment or not degradable in waste
Persistence and Degradability Persistence Degradation in sewage treatment plant	effects in the aquatic environment. The product contains following substances which are hazardous for the environment. Not readily biodegradable Persistence is unlikely, based on information available, Insoluble in water. Contains substances known to be hazardous to the environment or not degradable in waste water treatment plants.
Persistence and Degradability Persistence Degradation in sewage treatment plant Bioaccumulative Potential	effects in the aquatic environment. The product contains following substances which are hazardous for the environment. Not readily biodegradable Persistence is unlikely, based on information available, Insoluble in water. Contains substances known to be hazardous to the environment or not degradable in waste water treatment plants. May have some potential to bioaccumulate Spillage unlikely to penetrate soil Will likely be mobile in the environment due to its water solubility Is not likely mobile in the environment due its low water solubility Highly mobile in
Persistence and Degradability Persistence Degradation in sewage treatment plant Bioaccumulative Potential Mobility in soil Endocrine Disruptor Information Persistent Organic Pollutant	effects in the aquatic environment. The product contains following substances which are hazardous for the environment. Not readily biodegradable Persistence is unlikely, based on information available, Insoluble in water. Contains substances known to be hazardous to the environment or not degradable in waste water treatment plants. May have some potential to bioaccumulate Spillage unlikely to penetrate soil Will likely be mobile in the environment due to its water solubility Is not likely mobile in the environment due its low water solubility. Highly mobile in soils This product does not contain any known or suspected endocrine disruptors This product does not contain any known or suspected substance
Persistence and Degradability Persistence Degradation in sewage treatment plant Bioaccumulative Potential Mobility in soil Endocrine Disruptor Information Persistent Organic Pollutant Ozone Depletion Potential	effects in the aquatic environment. The product contains following substances which are hazardous for the environment. Not readily biodegradable Persistence is unlikely, based on information available, Insoluble in water. Contains substances known to be hazardous to the environment or not degradable in waste water treatment plants. May have some potential to bioaccumulate Spillage unlikely to penetrate soil Will likely be mobile in the environment due to its water solubility Is not likely mobile in the environment due its low water solubility Highly mobile in soils This product does not contain any known or suspected endocrine disruptors This product does not contain any known or suspected substance This product does not contain any known or suspected substance This product does not contain any known or suspected substance This product does not contain any known or suspected substance This product does not contain any known or suspected substance
Persistence and Degradability Persistence Degradation in sewage treatment plant Bioaccumulative Potential Mobility in soil Endocrine Disruptor Information Persistent Organic Pollutant	effects in the aquatic environment. The product contains following substances which are hazardous for the environment. Not readily biodegradable Persistence is unlikely, based on information available, Insoluble in water. Contains substances known to be hazardous to the environment or not degradable in waste water treatment plants. May have some potential to bioaccumulate Spillage unlikely to penetrate soil Will likely be mobile in the environment due to its water solubility Is not likely mobile in the environment due its low water solubility Highly mobile in soils This product does not contain any known or suspected endocrine disruptors This product does not contain any known or suspected substance

5-Aminosalicylic acid

 Other Information
 Do not flush to sewer. Waste codes should be assigned by the user based on the application for which the product was used. Do not empty into drains. Do not let this chemical enter the environment.

 SECTION 14. TRANSPORT INFORMATION

 Road and Rail Transport
 Not Regulated

 IMDG/IMO
 Not regulated

 IATA
 Not regulated

 Special Precautions for User
 No special precautions required

 SECTION 15. REGULATORY INFORMATION

International Inventories

X = listed, China (IECSC), Europe (EINECS/ELINCS/NLP), U.S.A. (TSCA), Canada (DSL/NDSL), Philippines (PICCS), Japan (ENCS), Japan (ISHL), Australia (AICS), Korea (KECL).

Revision Summary	New emergency telephone response service provider.						

Training Advice

Chemical hazard awareness training, incorporating labelling, Safety Data Sheets (SDS), Personal Protective Equipment (PPE) and hygiene.

Use of personal protective equipment, covering appropriate selection, compatibility, breakthrough thresholds, care, maintenance, fit and standards.

First aid for chemical exposure, including the use of eye wash and safety showers.
