| E-mail address             | begel.sdsdesk@thermofisher.com  |
| Recommended Use            | Laboratory chemicals.   |
| Uses advised against       | No Information available  |

# **SECTION 2. HAZARD IDENTIFICATION**

| Physical State                            | <b>Appearance</b>   | <b>Odor</b>              |
|---|---|--------------------------|
| Liquid                                    | No information available  | No information available |
| Toxic if swallowed. Fatal if inhaled. May | Emergency Overview<br>cause damage to organs through prolonged<br>life with long lasting effects. |                          |

# Classification of the substance or mixture

| Acute Oral Toxicity                                  | Category 3 |
|--|------------|
| Acute Inhalation Toxicity - Vapors                   | Category 2 |
| Specific target organ toxicity - (repeated exposure) | Category 2 |
| Acute aquatic toxicity                               | Category 1 |
| Chronic aquatic toxicity                             | Category 1 |

# Label Elements

# Phenyl selenocyanate

### Signal Word

Danger

**Hazard Statements** H301 - Toxic if swallowed H330 - Fatal if inhaled H373 - May cause damage to organs through prolonged or repeated exposure H410 - Very toxic to aquatic life with long lasting effects **Precautionary Statements** Prevention P270 - Do not eat, drink or smoke when using this product P260 - Do not breathe dust/fume/gas/mist/vapors/spray P264 - Wash face, hands and any exposed skin thoroughly after handling P271 - Use only outdoors or in a well-ventilated area P284 - Wear respiratory protection Response P304 + P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing P310 - Immediately call a POISON CENTER or doctor P330 - Rinse mouth Storage P403 + P233 - Store in a well-ventilated place. Keep container tightly closed P405 - Store locked up Disposal P501 - Dispose of contents/ container to an approved waste disposal plant

#### **Physical and Chemical Hazards**

None identified.

#### **Health Hazards**

Toxic if swallowed. Fatal if inhaled. May cause damage to organs through prolonged or repeated exposure.

#### **Environmental hazards**

Very toxic to aquatic life with long lasting effects.

This product does not contain any known or suspected endocrine disruptors.

# **SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS**

| Component           | CAS No    | Weight % |
|---------------------|-----------|----------|
| Phenylselenocyanate | 2179-79-5 | <=100    |

### **SECTION 4. FIRST AID MEASURES**

#### **General Advice**

Show this safety data sheet to the doctor in attendance. Immediate medical attention is required.

#### Eve Contact

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

#### **Skin Contact**

Wash off immediately with plenty of water for at least 15 minutes. Immediate medical attention is required.

#### Inhalation

Remove to fresh air. If not breathing, give artificial respiration. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Immediate medical attention is required.

#### Indestion

Do NOT induce vomiting. Call a physician or poison control center immediately.

# Most important symptoms and effects

#### Phenyl selenocyanate

#### None reasonably foreseeable.

#### Self-Protection of the First Aider

Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination.

#### Notes to Physician

Treat symptomatically.

### **SECTION 5. FIRE-FIGHTING MEASURES**

#### Suitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

# Extinguishing media which must not be used for safety reasons

No information available.

#### **Specific Hazards Arising from the Chemical**

Do not allow run-off from fire-fighting to enter drains or water courses.

#### **Protective Equipment and Precautions for Firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Thermal decomposition can lead to release of irritating gases and vapors.

### SECTION 6. ACCIDENTAL RELEASE MEASURES

#### **Personal Precautions**

Ensure adequate ventilation. Use personal protective equipment as required. Keep people away from and upwind of spill/leak. Evacuate personnel to safe areas.

#### **Environmental Precautions**

Do not flush into surface water or sanitary sewer system. Do not allow material to contaminate ground water system. Prevent product from entering drains. Local authorities should be advised if significant spillages cannot be contained.

#### Methods for Containment and Clean Up

Soak up with inert absorbent material. Keep in suitable, closed containers for disposal.

Refer to protective measures listed in Sections 8 and 13.

# **SECTION 7. HANDLING AND STORAGE**

#### Handling

Wear personal protective equipment/face protection. Do not get in eyes, on skin, or on clothing. Use only under a chemical fume hood. Do not breathe mist/vapors/spray. Do not ingest. If swallowed then seek immediate medical assistance.

#### Storage

Keep container tightly closed in a dry and well-ventilated place.

#### Specific Use(s)

Use in laboratories

# **SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

#### **Control Parameters**

<u>Legend</u>

ACGIH - American Conference of Governmental Industrial Hygienists OSHA - Occupational Safety and Health Administration NIOSH: NIOSH - National Institute for Occupational Safety and Health

#### Exposure Controls

#### **Engineering Measures**

Ensure adequate ventilation, especially in confined areas. Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source.

#### Personal protective equipment

Eye Protection Wear safety glasses with side shields (or goggles) (European standard - EN 166)

Hand Protection Protective gloves

| Glove material<br>Nitrile rubber | Breakthrough time<br>See manufacturers | Glove thickness | EU standard<br>EN 374 | Glove comments<br>(minimum requirement) |
|----------------------------------|--|-----------------|-----------------------|---|
| Neoprene<br>Natural rubber       | recommendations                        |                 |                       | ()                                      |
| PVC                              |  |                 |                       |   |

Inspect gloves before use.

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. (Refer to manufacturer/supplier for information)

Ensure gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion.

Remove gloves with care avoiding skin contamination.

| Skin and body protection        | Long sleeved clothing   |
|---------------------------------|---|
| Respiratory Protection          | When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.<br>To protect the wearer, respiratory protective equipment must be the correct fit and be used and maintained properly   |
| Large scale/emergency use       | Use a NIOSH/MSHA or European Standard EN 136 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced <b>Recommended Filter type:</b> Organic gases and vapours filter Type A Brown conforming to EN14387   |
| Small scale/Laboratory use      | Use a NIOSH/MSHA or European Standard EN 149:2001 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.<br><b>Recommended half mask:-</b> Valve filtering: EN405; or; Half mask: EN140; plus filter, EN 141<br>When RPE is used a face piece Fit Test should be conducted |
| Hygiene Measures                | Handle in accordance with good industrial hygiene and safety practice.  |
| Environmental exposure controls | Prevent product from entering drains. Do not allow material to contaminate ground water system. Local authorities should be advised if significant spillages cannot be contained.   |

# **SECTION 10. STABILITY AND REACTIVITY**

| Stability                                       | Stable under normal conditions.                            |
|---|--|
| Hazardous Reactions<br>Hazardous Polymerization | None under normal processing.<br>No information available. |
| Conditions to Avoid                             | None known.  |
| Materials to avoid                              | No information available.                                  |

Hazardous Decomposition Products None under normal use conditions.

# SECTION 11. TOXICOLOGICAL INFORMATION

#### Product Information

(a) acute toxicity;

- (b) skin corrosion/irritation; No data available
- (c) serious eye damage/irritation; No data available
- (d) respiratory or skin sensitization; Respiratory No data available

# Phenyl selenocyanate

|  | Therry Selenocyanate  |
|--|---|
| Skin   | No data available   |
| (e) germ cell mutagenicity;  | No data available   |
| (f) carcinogenicity;   | No data available   |
|  | There are no known carcinogenic chemicals in this product   |
|  |   |
| (g) reproductive toxicity;   | No data available   |
| (h) STOT-single exposure;  | No data available   |
|  |   |
| (i) STOT-repeated exposure;  | Category 2  |
| Target Organs  | Liver.  |
| (j) aspiration hazard;   | No data available   |
| Symptoms / effects,both acute and<br>delayed   | No information available  |
|  |   |
|  | SECTION 12. ECOLOGICAL INFORMATION  |
| Ecotoxicity effects  | Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment. The product contains following substances which are hazardous for the environment.                                 |
| Persistence and Degradability<br>Degradation in sewage<br>treatment plant                    | No information available<br>Contains substances known to be hazardous to the environment or not degradable in waste<br>water treatment plants.  |
| Bioaccumulative Potential  | No information available  |
| Mobility in soil   | No information available  |
| Endocrine Disruptor Information<br>Persistent Organic Pollutant<br>Ozone Depletion Potential | This product does not contain any known or suspected endocrine disruptors<br>This product does not contain any known or suspected substance<br>This product does not contain any known or suspected substance       |
|  | SECTION 13. DISPOSAL CONSIDERATIONS   |
| Waste from Residues/Unused<br>Products   | Should not be released into the environment. Waste is classified as hazardous. Dispose of in accordance with the European Directives on waste and hazardous waste. Dispose of in accordance with local regulations. |
| Contaminated Packaging   | Dispose of this container to hazardous or special waste collection point.   |
| Other Information  | Do not flush to sewer. Waste codes should be assigned by the user based on the application for which the product was used. Do not empty into drains. Do not let this chemical enter the environment.                |

| Prepared By      |
|------------------|
| Revision Date    |
| Revision Summary |

Health, Safety and Environmental Department 03-May-2024 New emergency telephone response service provider.

#### Training Advice

Chemical hazard awareness training, incorporating labelling, Safety Data Sheets (SDS), Personal Protective Equipment (PPE) and hygiene.

Use of personal protective equipment, covering appropriate selection, compatibility, breakthrough thresholds, care, maintenance, fit and standards.

# Phenyl selenocyanate

First aid for chemical exposure, including the use of eye wash and safety showers. Chemical incident response training.
