

Alcohol Swabs

Pre-measured, pre-moistened,
ready to use wipes

Thermo Fisher Scientific

At Thermo Fisher Scientific we provide a comprehensive range of healthcare devices and consumables and deliver products to the Australia and New Zealand Healthcare markets that are of a high quality and competitively priced.

We pride ourselves on selling products that meet the exceptional levels of safety, functionality and reliability that have been our hallmark for more than 40 years.

Briemar is TGA licensed to produce Sterile & Non Sterile Pharmaceuticals, Complementary and OTC Medicines, Medical Devices (Class 1 and Class1 Sterile Devices). Committed to producing safe, effective and reliable products to help healthcare professionals minimise the risk of an infection.

PDI is a leader in developing, testing and manufacturing of pre-moistened wipes for infection control and patient care. PDI's awareness of the market requirements and price competitiveness places them as the market leader of impregnated wipes worldwide

The importance of Swabs:

- An effective antibacterial formula for cleansing the skin prior to injection.
- Ideal to aseptically clean injection port.
- Economical and convenient for a variety of uses.
- Recommended by some medication manufacturers prior to injection.
