

From Brooks LIFE SCIENCES

Sample Management System

FreezerPro®

FreezerPro® is an intuitive, fast, reliable and secure solution which enables users to know precisely where a laboratory sample is located even before opening the freezer door.

FreezerPro is a biological sample management inventory system with over 250 installations globally. It provides laboratories with a secure web based application for managing samples.

Organisations looking for a commercial off the shelf solution for freezer inventory management, with no expensive setup or implementation costs, as well as central biobanks with millions of records, have relied on FreezerPro® for the secure management of samples and sample information. The FreezerPro® Cloud uses state-of-the-art, cross-region servers and storage technologies managed directly by Brooks Life Science Systems. Customers are able to access FreezerPro Cloud via a web browser from anywhere in the world, at any time.

Compatibilty

In addition to being compatible with PC/MAC, Tablet, Smartphone and web-based operation, FreezerPro is also compatible with many barcoding and RFID hardware scanners, readers and printers.

Compliance

- cGLP/cGMP (Good Laboratory Practice and Good Manufacturing Practice)
- Section 508 Accessibility Guidelines
- HIPAA Patient Safety and Quality Improvement Act of 2005 (Patient Safety Act)
