Contec® Specialty Cleaning Products for Animal Lab Facilities

**Mopping Systems, Wipes and Disinfectants
for all size facilities and all types of surfaces**

- Faster, more effective cleaning
- Better ergonomics reduce stress on staff
- Improved environment for animals

Animal labs represent a tremendous investment in terms of time, money, and most importantly — new technology. Proper facility maintenance is critical to protecting this investment, which often represents years of research and experimentation. Contec, Inc. is a company that is dedicated to meeting the critical cleaning needs of challenging environments. Contec has partnered with experienced lab animal professionals to understand the special requirements of this industry and to design a product line that will meet the critical needs of animal labs. We are prepared to work with lab managers and facilities people to develop the best and most efficient cleaning protocols for your specific application.

By the very nature of their subjects, animal facilities generate a tremendous amount of dirt and debris. Cleaning these areas poses two key challenges: The first is overcoming the logistics of cleaning facilities which continually generate contamination; and the second is accomplishing this cleaning while minimizing health risks to the subject animals. Using products designed for these critical applications and protocols that are easy to follow are essential elements in getting this job done well.

Textured Edgeless® Mopping System

The Textured Edgeless knitted polyester tube mop eliminates contamination from breakage and deterioration of traditional string mops. For use with aqueous solutions containing cleaning agents and disinfectants. Works well in existing wet mop hardware; however, we recommend a down-press wringer for maximum extraction. Available with colored tail bands for differentiation and prevention of cross-contamination between rooms.

- Textured polyester eliminates cotton mop fibers in the facility
- Eliminates cellulose that can be a food source for mold and bacteria
- Rugged knitted construction lasts up to 5 times longer than traditional mops
- Aggressive head band gives scrubbing power for difficult stains and debris

Contec Part #	Description
EL-MOPT	Textured Edgeless mop head w/ aggressive cleaning headband
EL-MOPT-GY	Textured Edgeless mop head, gray
ELTC-BLU	Textured Edgeless mop head, blue tail band
ELTC-BLK	Textured Edgeless mop head, black tail band
ELTC-RED	Textured Edgeless mop head, red tail band
ELTC-GRN	Textured Edgeless mop head, green tail band
2640	60" (152.4cm) Stainless Steel Handle, 1 piece
A71612	64" (162.5cm) Fiberglass Handle, 1 piece, non autoclavable

VertiKlean® MAX™ Mopping System

The VertiKlean MAX Mopping System is designed for cleaning and application of disinfectants to walls, ceilings and other hard to reach surfaces. The disposable absorbent sponge is laminated to filament polyester knit fabric on the surface.

- Light weight reduces stress on maintenance staff
- Enables uniform application of disinfectants
- Extension handles allow cleaning up to 15'
- Lasts longer than traditional sponge mops

Contec Part #	Description
VKMX0100	Small VertiKlean MAX mop head, 8.5" (21.6cm)
VKMX0200	Medium VertiKlean MAX mop head, 12.75" (32.4cm)
VKMX0300	Large VertiKlean MAX mop head, 15.25" (38.7cm)
2651A	Small mop head frame, 7" (17.8cm)
2652A	Medium mop head frame, 12" (30.5cm)
2653A	Large mop head frame, 14" (35.5cm)
2643	50" (127cm) QuickConnect™ handle, extends to 92" (233.7cm), anodized aluminum
2645	50" (127cm) QuickConnect™ handle, extends to 92" (233.7cm), stainless steel

EasyCurve™ Mopping System

The EasyCurve mop consists of a flat, fabric-laminated mop head attached to a curved, stainless steel frame. The disposable mop head attaches securely to the curved frame by a unique system of latching tabs that is simple and easy to remove.

- Up to 50% lighter than self-wringing roller mops
- Ultimate maneuverability allows maximum cleaning speed
- Recommended for tacky contamination control flooring
- Curved mop surface offers true “lift-and-pull” surface cleaning
- Enables all-surface cleaning with a single mopping tool

Contec Part #	Description
EZMP0100	EasyCurve mop head, 14 x 4.25 x 0.75” (35.5 x 10.7 x 1.9cm)
2724	EasyCurve mop head frame <i>U.S. Design Patent No. 586,966</i>
2725	QuickConnect™ stainless steel handle, 60” (152.4cm)
2726	EasyCurve Bucket with Slinger, 6.5 gal (25L)
2728	Stainless Steel Bucket Trolley, 4 autoclavable casters
2729	Stainless steel multibucket connecting kit

EasySat™ Bucketless Floor Mop

The EasySat Bucketless Mop allows application of cleaning and disinfecting solutions directly to the floor without a bucket using a 52 oz. gravity fed reservoir. Covers approximately 5,000 square feet. Requires minimal storage space. Fully autoclavable.

Contec Part #	Description
BLMOP	EasySat Bucketless Floor Mop hardware
BLVKMOP	EasySat mop head, 21.5 x 4.75 x 18.25” (54.6 x 12 x 46.3cm)
TBLVKMOP	EasySat mop head, textured, 21.5 x 4.75 x 18.25” (54.6 x 12 x 46.3cm)

Mop Buckets, Carts, Wringers

Contec offers a complete line and numerous options for stainless steel and plastic buckets and wringers. To choose the best hardware option for your mopping requirements, please visit www.contecinc.com.

- All systems are fully autoclavable
- Larger stainless steel carts have removable handles for easy storage and autoclaving

Contec Part #	Description
2720	Plastic double bucket system, (2) 6.5 gal. (25L) buckets, wringer, cart w/casters
2721	Plastic single bucket system, (1) 6.5 gal. (25L) bucket, wringer, cart w/ casters
2620	Stainless steel trolley, (2) 6.5 gal. (25L) polypropylene buckets (1 red, 1 blue), and downpress wringer
2622	Stainless steel trolley, (2) 6.5 gal. (25L) polypropylene buckets (1 red, 1 blue), and Slinger frame
2601	Stainless steel bucket, 8 gallon (30L), w/casters
2621/80	Stainless steel downpress wringer w/ insert (use with 2601)

Tax-Fre® Dry Mopping System

The Tax-Fre dry mop removes dust, hair and dirt from floors prior to or between wet mop applications. Disposable fabric floor mop covers are specially treated to pick up fine contaminants like hair and pin-worm eggs. The large 23" x 5" (58.4cm x 12.7cm) tapered swivel head with lightweight telescoping aluminum handle enables the operator to clean in hard to reach areas.

Contec Part #	Description
TF-1228	Tax-Fre floor mop covers, 12" x 28" (30.5 x 71cm)
UF211	Tax-Fre swivel mop head, 23" x 5" (58 x 12.7cm)
WWP08	8' (2.4m) aluminum extension handle, 2 piece

PROSAT® and SATWipes® Presaturated Wipes

Contec is the leader in the manufacturing of presaturated wipes for critical environments. Presaturated wipes offer a convenient and controlled solution to wet wiping applications. Currently available with IPA/DI water blends.

- Eliminate in-house blending
- Fast, efficient cleaning
- Economical large put-up options
- Reduces potential for cross-contamination

Contec Part #	Description
PS-850	PROSAT polypropylene wipes, 70% IPA/30% DI Water, 8" x 8" (20.3 x 20.3cm), 50 wipes/pouch
SWNW0014	SATWipes polypropylene/ rayon wipes, 70% IPA/30% DI Water in center-pull canister; 5.5" x 8" (14 x 20.3cm), 180 wipes/canister
SWNW0013	SATWipes polyester/ rayon wipes, 70% IPA/30% DI Water in easy-dispensing bucket; 9" x 7" (22.9 x 17.8cm), 700 wipes/bucket

Dry Wipes

Contec offers several dry wipes designed for durability and ease of use in many cleaning applications. Choose from clean-processed polyester knits to economical, absorbent nonwovens.

Contec Part #	Description
ULCS0001	Sealed-edge polyester knit wipes, 12" x 12" (31 x 31cm), bulk-packaged 1100 wipes/bag
TSWC0917	TuffStuff premium creped nonwoven wipes, white, 9" x 16.5" (23 x 42cm), pop-up dispenser box
TSWL1213	TuffStuff light nonwoven wipes, white, 12" x 13" (31 x 33cm), quarterfolded

Sterile Wipes

Contec offers a wide range of validated sterile wipes for use in aseptic animal facilities or in analytical and surgical procedures. Visit our web site for our full product line.

Contec Part #	Description
PS-911EB	PROSAT® Sterile™ polypropylene wipes, presaturated with 70% IPA/30% DI Water, sterile, 9" x 11" (23 x 28cm)
C2-1212IR	Polyester/cellulose wipes, sterile, 12" x 12" (31 x 31cm)
NWPZ0002	DuPont™ Sontara® Nonpyrogenic wipes, polyester/rayon, sterile, 12" x 12" (31 x 31cm)

Accel TB™ Ready-to-use Disinfectants

Accel TB is an EPA registered intermediate level disinfectant that is safe and fast acting with a broad spectrum kill. It is based on Accelerated Hydrogen Peroxide technology, (AHP), a synergistic blend of commonly used, safe ingredients that, when combined with low levels of hydrogen peroxide, dramatically increase its germicidal potency and cleaning performance. Unlike other disinfectants, Accel TB does not leave a residue, making this product safer for animals. For EPA Claims and substrate compatibility chart, visit www.contecinc.com

- Short contact times
- Neutral, nonoffensive odor
- No active residuals
- Environmentally friendly
- Safe for animals and technicians alike

Contec Part #	Description
ACCDISR-TB32	Ready to Use Liquid, 32 oz. (0.9L) bottle
ACCTRIGR	Non-aerosol trigger sprayer for 32 oz. bottle
ACCDISR-TBG	Ready to Use Liquid, 1 gallon (3.8L)
ACCDISR-TB5G	Ready to Use Liquid, 5 gallons (18.9L)

EPA Registered Claims
• 30 Second Non Food Contact Broad-Spectrum Sanitizer giving a 3 Log (99.9%) reduction in Vegetative Bacteria*
• 1 minute Bactericidal Claim giving a 6 Log (99.9999%) reduction in Vegetative Bacteria*
• 1 minute General Virucide Claim giving a 3 Log (99.9%) reduction*
• 5 minute Mycobactericidal Claim giving a 4 Log (99.99%) reduction*
• 10 minute Fungicidal Claim giving a 5 Log (99.999%) reduction*
