20% off

any 2 Primary & Flow Antibodies

Promo code: RPAB22

15% off

any Secondary Antibodies

Promo code: RSAB22

Valid till 30 Sep 2022

PRODUCT GUARANTEE

If an Invitrogen antibody doesn't perform as described, we'll replace the product at no cost to you or provide you with a credit for your next purchase.

ADVANCED VERIFICATION

We have implemented additional specificity tests to help ensure the highest confidence levels in our products. Simply look for our Advanced Verification badge.

PRODUCT AVAILABILITY

Plan your experiment with confidence. An estimated availability date for your antibody of choice can now be viewed in real time. Simply log in to your thermofisher.com account .

Commitment to antibody performance

Thermo Fisher Scientific is working to redefine antibody performance with a comprehensive approach to how antibodies are evaluated and validated. By combining specificity testing with extensive application validation data, we offer you confidence that high-quality Invitrogen antibodies will enable superior performance in your research.

Invitrogen™ antibodies undergo a rigorous **2-part testing** approach to **ensure specificity & reproducibility**

Pre-validation

Unvalidated antibodies may cause:

- poor & inconsistent results
- lack of reproductivity
- excess time & money spent

Post-Validation

High-quality Invitrogen Antibodies will enable **superior performance** in your research.

1

Target Specificity Verification

Various assays & verification methods are used to ensure that the antibody will **bind to the correct target**.

*Including at least one of the following:
Cell treatment | Neutralization | Peptide array |
SNAP-ChIP™ | Immunoprecipitation/mass spec
Relative expression | Knockout | Knockdown |
Independent Ab verification*

2

Functional Application Validation

Ensure the antibody works in the intended application.

*Including but are not limited to:
ChIP | Flow cytometry | Western blotting |
Immunohistochemistry |
Immunofluorescence imaging*

This promotion is open only to customers in Singapore. Customers who purchase any 2 Invitrogen Primary or Flow Cytometry antibodies will receive 20% off our list price upon presentation of promotion code **RPAB22** at time of order. Customers who purchase any secondary antibodies will receive 15% off our list price upon presentation of promotion code **RSAB22** at time of order. Both discounts will apply to orders received before 30th Sept 2022, or until promotional supplies are depleted, whichever comes first. Discount applies to list price in effect at the time order is received by Thermo Fisher Scientific. Third-party and custom antibodies are excluded from this promotion. Selected exclusions also apply. Cannot be combined with other discounts or promotions. Limited to Research Use Only products. Healthcare professionals may not participate in this promotion. Offer void where prohibited, licensed or restricted by local laws or regulation or agency/institutional policy. Other restrictions may apply. Thermo Fisher Scientific reserves the right to change these terms and conditions at any time without prior notice.
