

## CUSTOMER INFORMATION

February 24<sup>th</sup>, 2022

Dear Valued Customer:

The unprecedented demand for products supporting the global efforts related to the coronavirus has caused production delays for Invitrogen™ RNase-Free Tubes. In order to improve our supply capabilities, we added an additional manufacturing site. As a result, you may notice a difference in the appearance of Invitrogen™ RNase-Free Tubes.

The list of affected products:

Description	Cat. No.
Invitrogen™ RNase-free Microfuge Tubes, 0.5 mL	AM12300
Invitrogen™ Nonstick, RNase-free Microfuge Tubes, 0.5 mL	AM12350
Invitrogen™ RNase-free Microfuge Tubes, 1.5 mL	AM12400
Invitrogen™ Nonstick, RNase-free Microfuge Tubes, 1.5 mL	AM12450
Invitrogen™ Nonstick, RNase-free Microfuge Tubes, 2 mL	AM12475

There is no change in material (plastics) used for tubes production, there is no change to the Certificate of Analysis and there is no adverse effect on the quality of these products.

We apologize for any inconvenience this may cause. Please contact your local technical support team if you have questions or need further information through the URL below.
