12.2. Thermo Fisher will provide Customer with prompt written notice of any Claims for which indemnification is sought under this Agreement. Customer will, at its own expense, provide attorneys reasonably acceptable to Thermo Fisher to defend against any such claim. Thermo Fisher will cooperate fully with the Customer in such defense and will permit Customer to conduct and control such defense and the disposition of such Claims (including all decisions relative to litigation, appeal, and settlement); provided, however, that any of Thermo Fisher Indemnified Parties may retain its own counsel, at the expense of Customer, if representation of such Thermo Fisher Indemnified Party by the counsel retained by Customer would be inappropriate because of actual differences in the interests of such indemnitee and any other party represented by such counsel. Customer will keep Thermo Fisher informed of the progress in the defense and disposition of such claim and will consult with the Thermo Fisher with regard to any proposed settlement. Customer may not settle any such claim with an admission of liability of Thermo Fisher without Thermo Fisher's prior written approval, which will not be unreasonably withheld, conditioned, or delayed.

Any Customer's insurance will be primary over Thermo Fisher's insurance with respect to product liability. Customer will respond to any third-party claims with respect to its indemnification obligations. Customer's insurance policies will not be construed to mean any form of limitation of Customer's liability or obligations. Thermo Fisher will be given at least thirty (30) days prior written notice of the lapse or termination of such insurance. Customer will provide to Thermo Fisher

a Certificate of Insurance or its equivalent substantiating the existence of the insurance required by this provision within ten (10) days upon request by Thermo Fisher. Any claims made insurance policy will include a provision accounting for a reporting period of no less than two (2) years after the expiration or termination of this Quote.

**13. Thermo Fisher's Intellectual Property.**

13.1. Customer will promptly notify Thermo Fisher in writing of any Third Party claim made against Customer that: (i) any Product, including but not limited to, the way in which it is used or sold; or (ii) any other materials supplied hereunder infringes such Third Party's intellectual property. For the avoidance of doubt, any claims relating to Custom Products would continue to be subject to the obligations in Section 12.1(iii).

13.2. For non-Custom Products, if a Third Party alleges that the Products infringe its rights or if, in Thermo Fisher's reasonable opinion, such an allegation is likely to be made, Thermo Fisher may, at its option and its own cost: (i) modify or replace the Products in order to avoid the infringement; (ii) procure for the Customer the right to continue using the Products; or (iii) repurchase any Products which Customer is holding in stock at the price paid by the Customer.

**14. Confidentiality.**

14.1. Confidentiality Obligations. During the Term of this Agreement and for a period of five (5) years thereafter, each Party will (i) maintain the other Party's Confidential Information in confidence, (ii) limit dissemination to those of its employees who require said Confidential Information in order to perform this Agreement and who have agreed in writing to maintain the confidential nature of all information (including that of Third Parties and Affiliates) received by them in the course of their engagement on terms no less stringent than those set forth in this Agreement, (iii) not disclose said Confidential Information to any other person, and (iv) use said Confidential Information only to the extent necessary to perform this Agreement.

14.3. Relief. Because an award of money damages would be inadequate for any breach of Section 14.1 by a Party and any said breach would cause the other Party irreparable harm, each Party also agrees that in the event of a breach or threatened breach of Section 14, the other Party will also be entitled to seek equitable relief, including injunctive relief and specific performance. Said remedies will not be the exclusive remedies for any said breach, but will be in addition to all remedies available at law or in equity.

- 14.4. **Document Return.** Upon termination or expiration of this Agreement, or earlier upon receipt of written request from the Discloser, Recipient agrees to return or destroy all Confidential Information, including materials, received from the Discloser; provided, however, that (i) Recipient may retain in its confidential files one (1) copy of written Confidential Information for record purposes only, and (ii) nothing herein will require Recipient to delete or purge any records in backup or archival systems kept in the normal course of business.
- 14.5. **Publicity.** Except as required by law or deemed necessary under applicable federal or state securities laws or regulations, neither Party will use the name of the other Party, nor the name of any member of the other Party's staff, in connection with any publicity without the prior written approval of the other Party.
15. **Termination and Expiration.**
- 15.1. **Termination.** Thermo Fisher may terminate this Agreement upon or after the material breach of this Agreement by Customer and/or its Affiliates if Customer or its Affiliates has not cured such material breach within thirty (30) days after written notice thereof is provided by Thermo Fisher. Termination by Thermo Fisher for Customer's material uncured breach will, at Thermo Fisher's option, relieve Thermo Fisher of the obligation to deliver Products under an outstanding PO. In addition, Thermo Fisher may terminate this Agreement immediately upon written notice to Customer if Thermo Fisher determines that termination is required for biosecurity, biosafety, patent infringement, and/or feasibility reasons.
- 15.2. **Effect of Termination.** Upon termination of this Agreement, (i) Customer will have no right to continue any use of Products (other than for Customer's internal research use) purchased prior to or delivered subsequent to the effective date of the termination or expiration of this Agreement, and (ii) all rights of Customer, its Affiliates, and Partners granted under this Agreement will terminate.
- 15.3. **Effect of Expiration.** Unless this Agreement is sooner terminated pursuant to Section 15.1, upon expiration of the Quote Term, Customer may no longer place new POs for Products under this Agreement but Customer may continue to use the Products purchased and delivered prior to the Quote expiration in accordance with these Terms and Conditions.
- 15.4. **Outstanding Obligations.** For clarification, all Customer obligations to pay for Products purchased prior to said termination or expiration will continue in full force after termination or expiration. Upon any expiration or termination of this Agreement, each Party will promptly return to the providing Party, at its request, all Confidential Information of the providing Party, in accordance with Section 14.4.
16. **Miscellaneous.**
- 16.1. **Assignment.** Neither Party may assign or otherwise transfer this Agreement nor any right or obligation hereunder without the prior written consent of the other Party, except that Thermo Fisher may assign or otherwise transfer this Agreement or any right or obligation hereunder without the written consent of Customer (i) to any of its Affiliates, (ii) to any Third Party with which it may merge or consolidate, or (iii) to any Third Party to which it transfers all or substantially all of the assets, goodwill, and business to which this Agreement relates.
- 16.2. **Governing Law.** This Agreement is governed by the laws of California, without regard to its conflicts of laws rules; provided however, that those matters pertaining to the validity or enforceability of patent rights shall be interpreted and enforced in accordance with the laws of the territory in which such patent rights exist. The Parties agree that any application of the United Nations Convention on Contracts for the International Sale of Goods is specifically excluded and shall NOT apply to this Agreement.
- 16.3. **Dispute Resolution.** In the event any Party claims breach of this Agreement, the Parties will consult with each other in good faith on the most effective means to cure the breach and to achieve any necessary restitution of its consequences. This consultation will be undertaken within a period of ten (10) days following the receipt of a written request to consult, and the consultation period will not exceed thirty (30) days. During the consultation period, neither litigation nor arbitration may be pursued until attempts at consultative dispute resolution have been exhausted.
- 16.4. **Notices.** All communications concerning this Agreement shall be given in writing and shall be considered to have been duly delivered when received. The addresses to be used for such notices shall be the addresses set forth in the Quote, unless and until changed by either Party by providing proper notice to the other Party.
- 16.5. **Export Control.** Customer will not and shall ensure that Partners shall not, directly or indirectly, sell, export, re-export, transfer, divert, or otherwise dispose of any Products (including, but not limited to, samples, materials, equipment, information, and technical data) to any destination, entity, or person prohibited by United States, European Union or local laws or regulations.
- 16.6. **Compliance with Laws.** Notwithstanding any other provision of this Agreement, neither Customer nor Thermo Fisher shall be required to take or refrain from taking any action impermissible or penalized under the laws of the U.S. or any applicable foreign jurisdiction, including without limitation the anti-boycott laws administered by the U.S. Commerce and Treasury Departments.
- 16.7. **Entire Agreement.** This Agreement constitutes the entire, full, and complete agreement between the Parties concerning the subject matter hereof, and supersedes all prior agreements, negotiations, representations, and discussions, written or oral, express or implied, between the Parties in relation thereto. In the event of a conflict between the Quote and these Terms and Conditions, the Quote shall prevail.
- 16.8. **No Waiver.** The Parties hereto mutually covenant and agree that no waiver by either Party of any breach of the terms of this Agreement will be deemed a waiver of any subsequent breach thereof. Any purported waiver of any breach of the terms of this Agreement must be in writing.
- 16.9. **Severability.** Should one or more of the provisions contained in this Agreement be held invalid, illegal or unenforceable by a court or tribunal with jurisdiction to do so, then the validity, legality and enforceability of the remaining provisions contained herein will not be affected or impaired thereby, unless the absence of the invalidated provision(s) adversely affect the Parties' substantive rights. In said instance, the Parties will use their best efforts to replace the invalid, illegal or unenforceable provision(s) with valid, legal and enforceable provision(s) which, insofar as practical, implement the purposes of this Agreement.
- 16.10. **Survivability.** Sections 2.6, 8.4 (ii), 11, 12, 14 and 16 (inclusive) will survive expiration of this Quote, along with such other provisions of this Agreement which by their nature are intended to survive.
- 16.11. **Force Majeure.** Each Party's obligations under these Conditions shall be suspended if performance is prevented or delayed by any future event which (i) is beyond the reasonable control of that Party, and (ii) could not have been prevented by that Party taking commercially reasonable steps. As soon as commercially reasonable after the suspension, the Party seeking to rely thereon shall give written notice to the other Party stating the anticipated consequences. In the event of the suspension, the Party seeking to rely thereon shall take such measures as it deems appropriate to minimize the impact of any suspension and to resume performance of its obligations as soon as is reasonably practicable.
- 16.12. **Transmission.** The execution and delivery of this Agreement by either Party hereto by e-mail delivery of a ".pdf" or similarly formatted data file will constitute valid execution and delivery of this Agreement.
