

Bioproduction

Improve manufacturing productivity with trusted weight powders

Increase throughput by outsourcing your dry powder preparation including supply, quality control, weighing and dispensing

Features

Single chemical repacks from 25 gm to 75 kg

Weight tolerance: 0.5 %

Electronic weight verification system

HEPA filtered dispensing suite

Dedicated HVAC system

Qualified ISO 8 (static) annually

- ISO 13485, 21 CFR 820
- FDA registered

Labeled with the net weight

Benefits

To help achieve the following:

More focus on core manufacturing activities

Improved manufacturing cycle time and throughput

Improved manufacturing can help lower OpEx

Reduced need for space results in CapEx avoidance

Reduced need to reweigh material

Reduced raw material waste and disposal fees

Decreased risk of cross-contamination

Decreased overall EH&S risk

Flexibility in bioprocessing containers
