

## 8 Reasons to Finance Equipment for Your Business

The vast majority (78%) of U.S. businesses of all sizes—from small entrepreneurs to Fortune 100 companies—in all industries—from construction to healthcare—lease or finance their equipment. Here are some reasons why:

### Finance 100%

Arrange 100% financing of your equipment, software and services with 0% down payment.

### Save cash

Save your limited cash for other areas of your business, such as expansion, improvements, marketing or R&D.

### Keep up-to-date

Keep up-to-date with technology by acquiring more and better equipment than you could without financing.

### Outsource asset management

Let your equipment financing company manage your equipment from delivery to disposal.

### Accelerate ROI

Rather than paying one lump sum for your equipment, make smaller payments while the equipment generates revenue.

### Customize your terms

Set customized payments to match your cash flow and even seasonal income fluctuations.

### Benefit from bundling

Bundle the equipment, installation, maintenance and more into a single, easy-to-manage solution.

### Hedge against inflation

Lock in rates when you sign your lease to avoid inflation in the future.
