Versatile and cost-effective Indiko Plus Clinical Chemistry Analyzer

Discover how labs achieve more with less when performing clinical chemistry applications

Switzerland:

Stephanie Frauchiger

Laboratory Technician, Forensic Chemistry and Toxicology, Forensic Institute of Medicine, University of Basel, Switzerland

What type of testing are you running on the analyzer?

We use the Thermo Scientific™ Indiko™ Plus Clinical Chemistry Analyzer to screen urine and tissue samples for drugs of abuse and for drugs of interest. We are using the Thermo Scientific™ CEDIA™ test kits, as well as Thermo Scientific™ DRI™ test kits.

How many samples are you running?

The screening process takes place twice a week, an average of 30 samples per week.

Why did you choose the Indiko Plus analyzer as your routine instrument? How did it improve your routine analysis?

I found the Indiko Plus analyzer extremely simple to use and very intuitive to understand. The screening process we utilize with the Indiko Plus analyzer has just honestly streamlined our entire process, at least targeted analysis.

Which kind of support do you get from Thermo Fisher Scientific?

We have a really excellent team here in Basel. Their support and technical expertise have been above and beyond what we could have expected and what we want.

Mexico:

Jaqueline Silva

Chemist, AIMSA laboratory

David Hernández

Laboratory Technician, AIMSA laboratory
Mexico City, Mexico

Why did you choose the Indiko Plus analyzer as your routine instrument?

We chose this equipment for its precision and speed. The advantage of the Indiko Plus analyzer is that it is very accurate in internal and external quality control. It is an instrument that requires only little user interaction and it is not necessary to stop the process to supply consumables.

How long have you used the Indiko Plus analyzer and how many samples are you running per day?

We have had the Indiko Plus analyzer in use for five years, running 200 samples daily.

What are the major benefits you see using the Indiko Plus analyzer?

We recommend the Indiko Plus analyzer for its precision, stability, and robustness that allow us to meet delivery times and for the quality of the results.

South Africa:

Mashudu Madzivhandila

Laboratory Manager, Pelo Laboratories,
Louis Pasteur Private Hospital, Pretoria,
South Africa

Why did you choose the Indiko Plus analyzer as your routine instrument?

While the Indiko Plus analyzer processes all our biochemistry tests, it makes us a lab of choice in the hospital. The fact that the Indiko Plus analyzer is robust and gets results out quickly makes the jobs of our lab technicians much easier.

How long have you used the Indiko Plus analyzer and how many samples are you running per day?

We have used the Indiko Plus analyzer for three years, running 100 tests daily.

What are the major benefits you see using the Indiko Plus analyzer?

Its cost-effectiveness is very good for our business, but not only that, the array of tests that it offers as well. We don't have to get any additional instrument to run other biochemistry analytes. The Indiko Plus analyzer runs basically everything we need in the hospital.

Indonesia:

Dr. Deli Theo, Sp.PK, MARS

Pathologist and Operational Director, Mitra
Medika Hospitals, Medan North Sumatera,
Indonesia

Why did you choose the Indiko Plus analyzer as your routine instrument?

We have chosen Indiko analyzers because of the simplicity, ease of use, low water consumption, and low power requirements.

How long have you used the Indiko Plus analyzer and how many samples are you running per day?

We are using Indiko and Indiko Plus analyzers in five hospitals while analyzing roughly 4,000 tests per month.

What type of testing are you running on the analyzer, and what is the major benefit you see using Indiko analyzers?

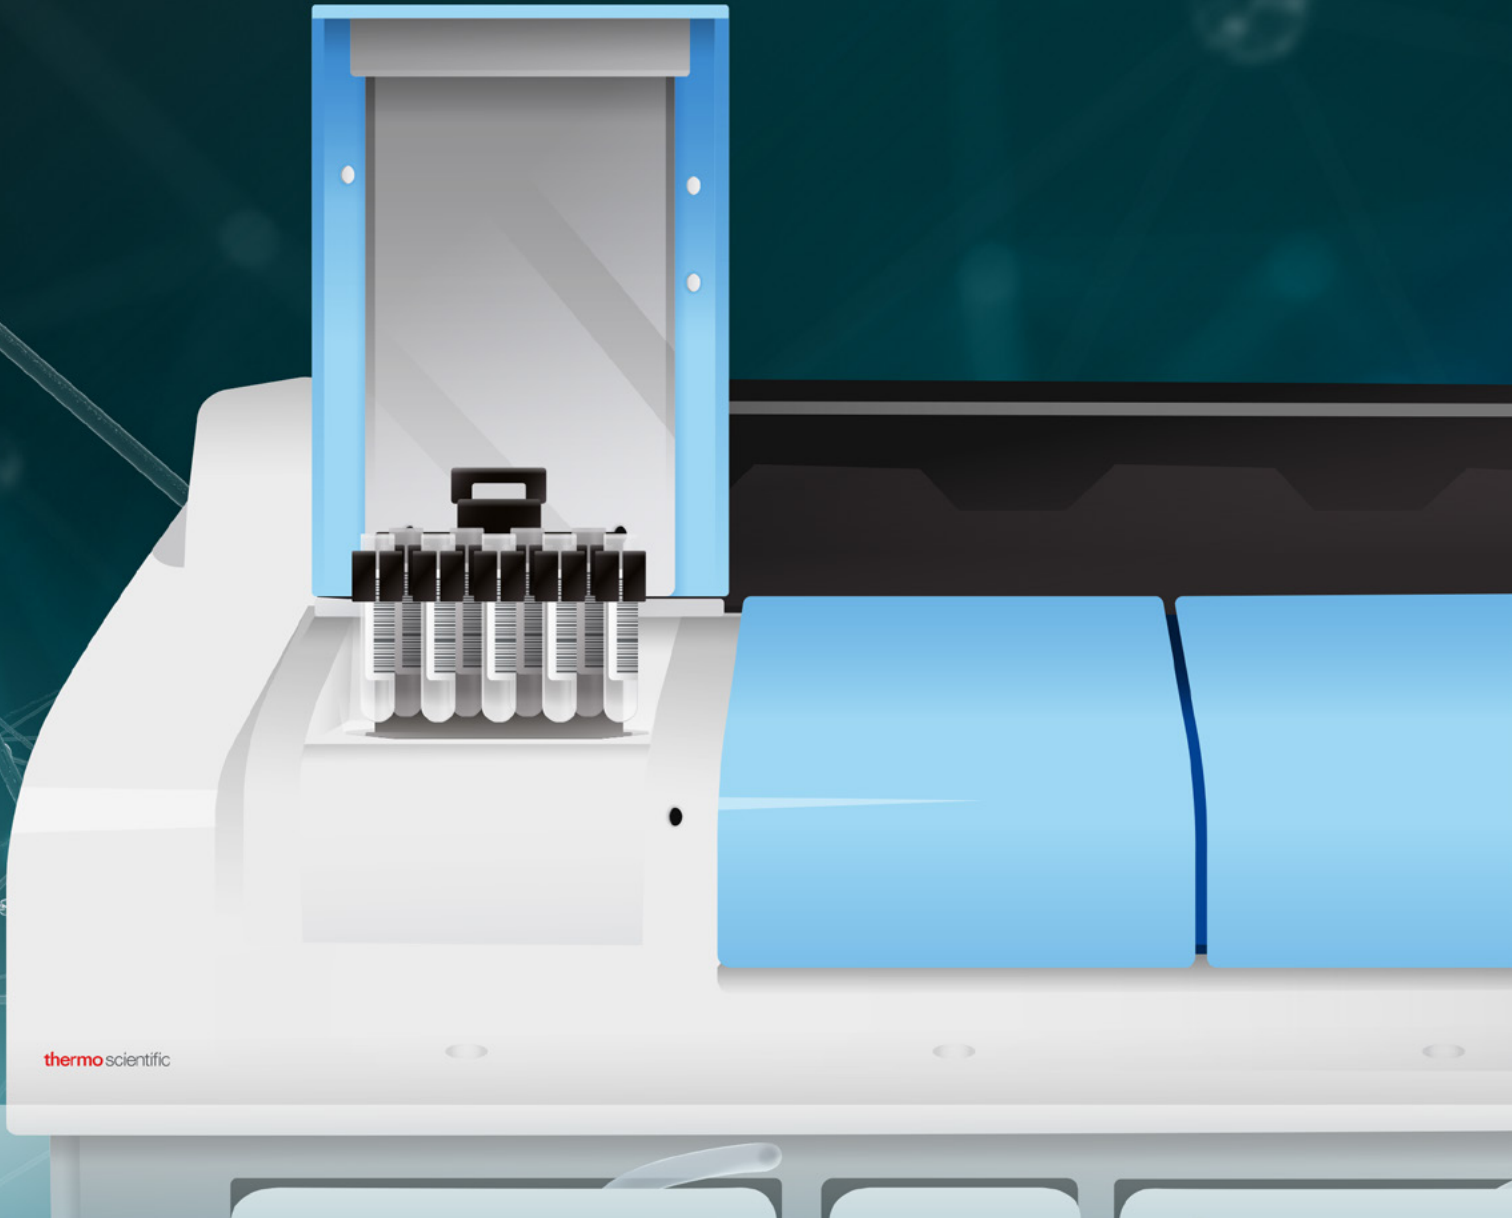

We do use analyzers for routine clinical chemistry and for specialty testing such as CRP testing. The most important thing is that the Indiko analyzer has good external proficiency testing results. We participate in the proficiency testing twice a year.

Power your lab with reagents optimized for Indiko analyzers

Thermo Scientific™ reagents for Indiko and Indiko Plus analyzers bring best-in-class methodologies and smooth operations to your lab.

- An extensive menu of tests features clinical chemistry, specific protein, and toxicology applications
- Assays are always ready to use, with full validation and compliance and automatic barcoding for process and reordering checks
- Standardized tests help ensure reliable performance with reagents for the Indiko system
