

Ion Chromatography User Meeting

Tuesday, 12th September 2017

ThinkTank Museum
Millenium Point, Curzon Street
Birmingham
BA4 7XG

Preliminary agenda

Time	Topic
09:30	Registration
10:00	Welcome
10:10	What's New in Ion Chromatography - Thermo Scientific™ ISQ™ EC Single Quadrupole Mass Spectrometer
10:45	Organic acids just got easier: Resolution, Speed, Simplicity
11:05	Transition metals: From very affordable to very rapid speciation with IC-ICP-MS
11:25	Coffee break
11:45	Polar pesticides, a growing area? 10 years of polar pesticide analysis by IC-MS at Fera, <i>Dr Stuart Adams, Senior Analytical Chemist, Fera Science Ltd</i>
12:15	User presentation: Nutritional characterization of carbohydrates and the application of high performance ion chromatography, <i>Englyst Carbohydrates Ltd</i>
12:45	Lunch break
13:15	Workshops and Application Cafe
14:45	How can Unity Lab Services help?
15:00	Live demo: Autodilution
15:30	Meeting close

Participation is free of charge. Registration is required.
