

# Accelerate your Chromeleon CDS learning journey

Your path to proficiency, just a few clicks away!

Whether you are a laboratory user or a system administrator, we've got you covered. Our new Thermo Scientific™ Chromeleon™ CDS eLearning on-demand courses are designed to provide an accessible and consistent experience to all learners.

**Boost productivity and optimize budget allocation through a standardized learning experience. Our eLearning program is built for:**

- **Accessibility:** Access all modules online anywhere at any time.
- **Flexibility:** Access the eLearning material at your own pace, and it's always available for a refresher or reinforcement training, further increasing the value of your subscription.
- **Cost-Effectiveness:** Eliminate the need for physical training spaces or travel expenses associated with attending in-person classes.
- **Consistency:** Unify your teams across the world with the same learning experience.
- **Partnership:** Amplify your learning experience by joining monthly Q&A sessions with our CDS experts.
- **You:** Combine our modules to support your needs for your business as a user, a system administrator, or a solutions architect.

Speak to your Thermo Fisher sales representative now for more details and optimize your Chromeleon CDS learning experience.
