

UK Metabolomics Seminar | Birmingham | March 15, 2018

Edgbaston Room, Lucas House, University of Birmingham, Edgbaston Campus, Birmingham B15 2TI

Agenda	
09:30	Welcome and Introduction <i>Phil Green, Thermo Fisher Scientific</i>
09:45	What are you missing in your metabolome ... The Orbitrap™ Perspective <i>Anas Kamleh, Thermo Fisher Scientific</i>
10:00	Come and discover the best kept secret in metabolomics. Thermo Scientific™ Compound Discoverer™ Software <i>Elena Sokol, Thermo Fisher Scientific</i>
10:45	Case study: Identification of unknown compounds <i>Anas Kamleh, Thermo Fisher Scientific</i>
11:00	Coffee break
11:30	Measuring the masses in clinical metabolomics at Phenome Centre Birmingham <i>Warwick Dunn, Phenome Centre University of Birmingham</i>
12:00	Find the targets and answers that matter - Introducing the AbsoluteIDQ p400 HR kit and Thermo Scientific™ Q Exactive™ Orbitrap™ MS for targeted metabolic profiling <i>Matthias Scheffler, BIOCRATES Life Sciences AG</i>
12:30	Lunch
13:30	Back to the future with Thermo Scientific™ Q Exactive™ GC Orbitrap™ GC/MS/MS <i>Cristian Cojocariu, Thermo Fisher Scientific</i>
14:00	Ionic Metabolites - An Analytical Challenge for IC-MS? <i>Daniel Talbot, Thermo Fisher Scientific</i>
14:30	Let's chew the fat with Orbitrap™ <i>Elena Sokol, Thermo Fisher Scientific</i>
15:00	Q & A and meeting end
