

Benefit from a comprehensive consumables product offering to support your chromatography workflow

Thermo Scientific™ products:

- SMART Digest™ kits
- SOLA™ SPE products
- HyperSep™ protein precipitation plates
- HyperSep™ SPE cartridges and plates
- SPE manifolds and accessories
- HyperSep™ Dispersive SPE (QuEChERS)
- Syringes and filters

- Vials and closures
- High recovery vials and inserts
- Polypropylene vials
- GOLD Grade Vials
- AVCS closures and SureStop vials
- MS certified vials
- Electronic crimping and decrimping tools
- Well plates for chromatography

- Size exclusion chromatography
- Charged variant profiling
- Intact and subunit analysis
- Affinity chromatography
- Glycan analysis
- Oligonucleotide analysis
- Peptide analysis
- Nano, capillary, micro LC columns

- Accucore™ HPLC and UHPLC columns
- Acclaim™ HPLC and UHPLC columns
- Hypersil™ GOLD HPLC columns
- Hypercarb™ HPLC columns
- Application specific HPLC columns
- Hypersil™ BDS and Hypersil™ classical HPLC columns
- LC accessories
- Preparative HPLC columns

- TraceGOLD™ capillary GC columns
- TracePLOT™ GC columns
- TraceGOLD™ packed GC columns
- GC consumables
- Gas management
- GC equipment
- GC reagents

Sample preparation solutions

Save time, improve reproducibility and extend the lifetime of your analytical LC and GC columns with our comprehensive range of sample preparation products. Benefit from the advanced solid phase extraction (SPE) consumables to achieve the highest level of sensitivity, selectivity, and recovery.

Sample handling solutions

Some samples are plentiful and robust and storage has little effect on your result, but sometimes your vial, plate or closure selections play a critical role in ensuring the cleanliness, security and integrity of your most valuable samples. Whether you have routine and robust samples, or you need to ensure the highest level of confidence and compliance, our market leading portfolio of vials, plates and closures has everything you need.

BioLC columns and accessories

Achieve ultrahigh resolution and high efficiency separations of proteins, peptides, monoclonal antibodies, biosimilars, carbohydrates, nucleic acids and more. Our unique column chemistries for biological samples have a long-standing reputation for providing excellent reproducibility and durability under a broad range of pH, temperature, and mobile phase compositions.

LC columns and accessories

As a leader in LC column technology including silica, polymer and porous graphitic carbon manufacturing, bonded phase production and column packing for 40 years, you can rely on the quality of Thermo Scientific HPLC products: a comprehensive range of innovative columns, accessories and equipment for fast and reproducible analytical and prep HPLC and UHPLC analysis.

GC columns and accessories

We offer a broad portfolio of GC columns and accessories designed to give optimal system performance for today's challenging analyses. Our range of GC accessories include all the tools needed by today's gas chromatographers.
