

**DECLARATION OF CONFORMITY**

**In respect to the following directives**
- Low Voltage Directive: 2006/95/EC

**the manufacturer**

Thermo Fisher Scientific

**hereby declares that the product(s)**

Product Name: MoverLink F01820

Compatible Dim4 Peripherals:
- Thermo Carousel
- Orbiter BenchTrak
- Spinnaker BenchTrak
- E-Stop Hub
- MiniHub

**conform(s) to the following standards or other normative documents**

**EM Immunity**
- EN61326-1:2006
- EN61000-4-2; EN61000-4-3; EN61000-4-4; EN61000-4-5; EN61000-4-6; EN61000-4-8; EN61000-4-11; EN61000-3-2; EN61000-3-3

**EM Emissions**
- Class A, Group I
- Industrial, Scientific, and Medical (ISM) Equipment

**FCC**
- FCC Part 15, Subpart B, Class A – Unintentional Radiators

**Safety**
- EN61010-1:2004
- CAN/CSA-C22.2 No. 61010-1-04
- UL61010A-1

**Environment (RoHS)**
- This equipment, to the best of our knowledge, complies with European Directive 2011/65/EU on the Restriction of Hazardous Substances (RoHS2). Thermo CRS bases its evaluation on information provided by third parties and has taken and continues to take reasonable steps to provide accurate information. Thermo CRS has not conducted destructive testing or chemical analysis on the incoming materials and/or chemicals.

**China RoHS**
- Conforms to standard GB/T26572. Refer to the following website for the information table.

**Supplementary Information**

Systems using Thermo CRS products should be evaluated for compliance with local standards for specific application compatibility.

The “Safe Use of the System” chapter in the user’s guide provides information to protect the operator against injury. This must be consulted before using the product.

The MoverLink is designed for connecting Dim4 Peripherals to a PC via RS-232 or USB in laboratory applications. For applications where the MoverLink is controlling a mover that is handling volatile, bio-hazardous, or radioactive samples is required, the end-user must carry out a risk assessment to determine what further measures may be required to protect the operator from injury. Examples of other measures may include adding a fume hood, the use of Personal Protective Equipment (PPE – gloves, coats, breathing apparatus, etc.).

**When and Where Issued:**
- Mar 26, 2019
- Burlington, Ontario, Canada

**Contact established in the Community authorized to compile the technical file or the relevant technical documents**
