# Our areas of expertise

## Leading supplier of fine chemicals for research

### Where science meets service

With over 46,000 Alfa Aesar products in stock, we are the supplier of choice for chemicals, metals, and life science products for research and development.

- High purity inorganics
- Novel organics
- Precious metal compounds & catalysts
- Organometallics
- High purity metal products
- Solvents

## Life science research chemicals

### Quality products you can trust

As a leading supplier of life science research chemicals our quality biochemical reagents support academic and biotech research.

- Cell biology
- Molecular biology
- Proteomics
- Genomics
- Immunology
- Vascular biology

## New product innovations

### Immerse yourself in a new way of thinking

We offer highly specialized performance materials and products for electronics and nanotechnology industries.

- Cerion nanoparticles
- High purity materials for photovoltaics
- Fuel cells catalysts & components
- Precious metal catalysts
- Specialty silver salts

## Specialty bulk services

### Custom solutions for your needs

Specialty chemicals produced and packaged to meet exact specifications. Our in-house manufacturing capabilities set us apart from competitors, enabling us to offer products from gram to ton quantities. Globally supporting customers' requirements from research and development through to full scale production.

- Products from catalog to large scale quantities
- Technical specifications to fit your needs
- Custom synthesis
- Supply chain management
- Inventory control & availability
- Global sourcing expertise

# Channel partners

Helping connect us to customers

Working together is fundamental when building a long-term partnership and we value our relationship with you.

We are focused on meeting the needs of your customers by providing quality products, outstanding service and unrivalled technical expertise.

## **Our commitment to you**

- Open communication
- Sales support and product training
- Dedicated account manager
- Technical expertise
- Product quality
- Supply chain support

## **Our competitive advantages**

- Global product range
- Over 46,000 products in stock
- Our bio range contains over 4,000 products
- Over 50 years of production experience
- Unsurpassed level of service
- Global sourcing capabilities
- In-house manufacturing
- Wide selection of specialized compounds
- Custom products and packaging
- Next day delivery available
- Competitive pricing

# Sales and technical contacts

## Catalog sales and customer service

Customer Service Representatives are available to create a quote for you, help place an order, or answer any questions about your existing order.

**800-343-0660**

Monday to Friday, 8am-7pm (EST)  
info@alfa.com

Diane Parsons  
Customer Service Supervisor  
diane.parsons@thermofisher.com  
978-521-6342

## Technical service team

Our Technical Service Representatives are trained in specific product lines to answer your questions regarding applications, specifications, product properties and handling.

To request documentation or a certificate of analysis please email: [certs.request@alfa.com](mailto:certs.request@alfa.com)

**800-343-7276**

Monday to Friday, 8am-5pm (EST)  
tech@alfa.com

Moses Njogu  
Technical Services Manager  
moses.njogu@thermofisher.com  
978-521-6341

## Sales team

Specialty Bulk Sales can provide you with a quotation for products from gram to ton quantities.

**888-343-8025**

Monday to Friday, 8am-5pm (EST)  
bulksales@alfa.com

John Touhill  
National Sales Manager
