

Make Your Comeback

Enjoy your comeback with advanced and comprehensive lab solutions

Thermo Scientific™ E1-ClipTip™ Electronic Pipette with Adjustable Tip Spacing

Keep Up The Space, Every Second Counts With Thermo Scientific™ E1-ClipTip™ Electronic Adjustable Tip Spacing Multichannel Equalizer Pipette, the equalizer feature allows transfer of multiple samples at once, reducing pipetting actions by 80%.

Exclusive E1-ClipTip Starter Kit Promotion

Thermo Scientific™ Nalgene™ Rapid-Flow™ Sterile Disposable Filters

Perform sterile filtration of cell culture media, serum, additives and buffers with Thermo Scientific™ Nalgene™ Rapid-Flow™ Sterile Disposable Filters with PES Membranes. Features fast flow rates, a high throughput for increased filtration efficiency and exclusive Rapid-Flow support plate design.

20% discount on selected SKU

Thermo Scientific™ Nalgene™ and Nunc Storage Cryogenic Tubes

Enhance aseptic techniques with externally threaded Thermo Scientific™ Nalgene™ and Nunc Storage Cryogenic Tubes. These storage tubes are ideally suited for research and general laboratory storage of high-value and genomic materials down to vapor phase liquid nitrogen temperatures.

Special package price for Cryotube and accessories

Thermo Scientific™ Heratherm™ Advanced Protocol Security Microbiological Incubators

Ensure outstanding sample safety with Thermo Scientific™ Heratherm™ Advanced Protocol Security Microbiological Incubators. Features include a unique 140°C decontamination routine, lockable incubator door with alarm for restricted access, and automatic over- and under-temperature alarms. Models are available with a stainless-steel exterior, offering an easy to clean, robust and corrosion-resistant surface that meets demanding needs in pharmaceutical and clinical laboratories.
