

Be prepared for the unexpected

Thermo Scientific™ Smart-Vue™ Pro Remote Monitoring Solution

Monitoring solution for sample storage and processing

- 01: Monitor critical parameters
- 02: Secure and compliant cloud*
- 03: Extended wireless range
- 04: Scalable design

Protection and compliance

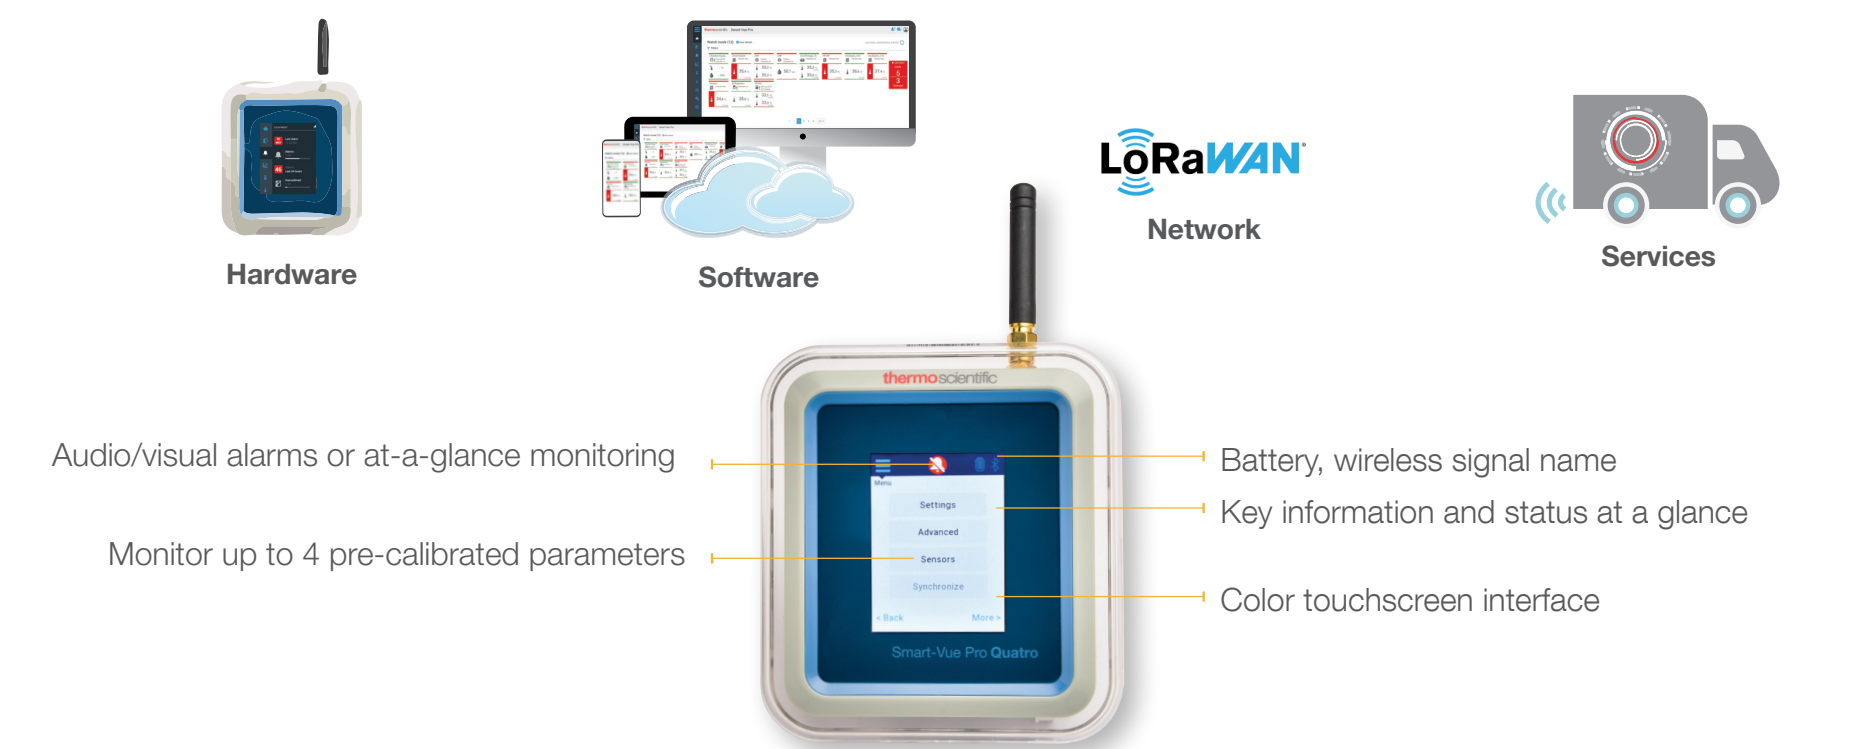

Real-time 21 CFR compliant data logging and monitoring of critical parameters across your lab equipment

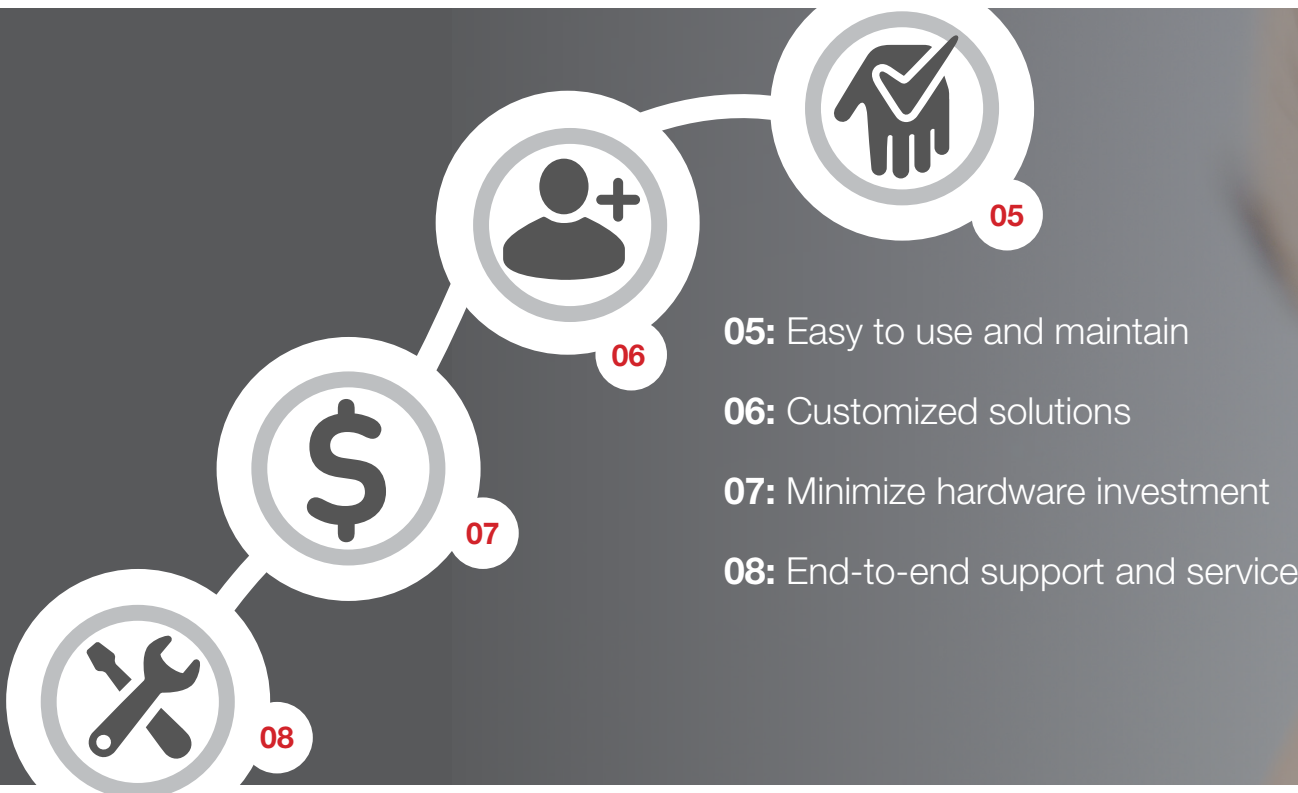

Weather caused
80 %
of power outages in the USA
between 2003-2012¹

Squirrels cause
11 %
of power outages in the USA according to Global Electronic Services Inc.²

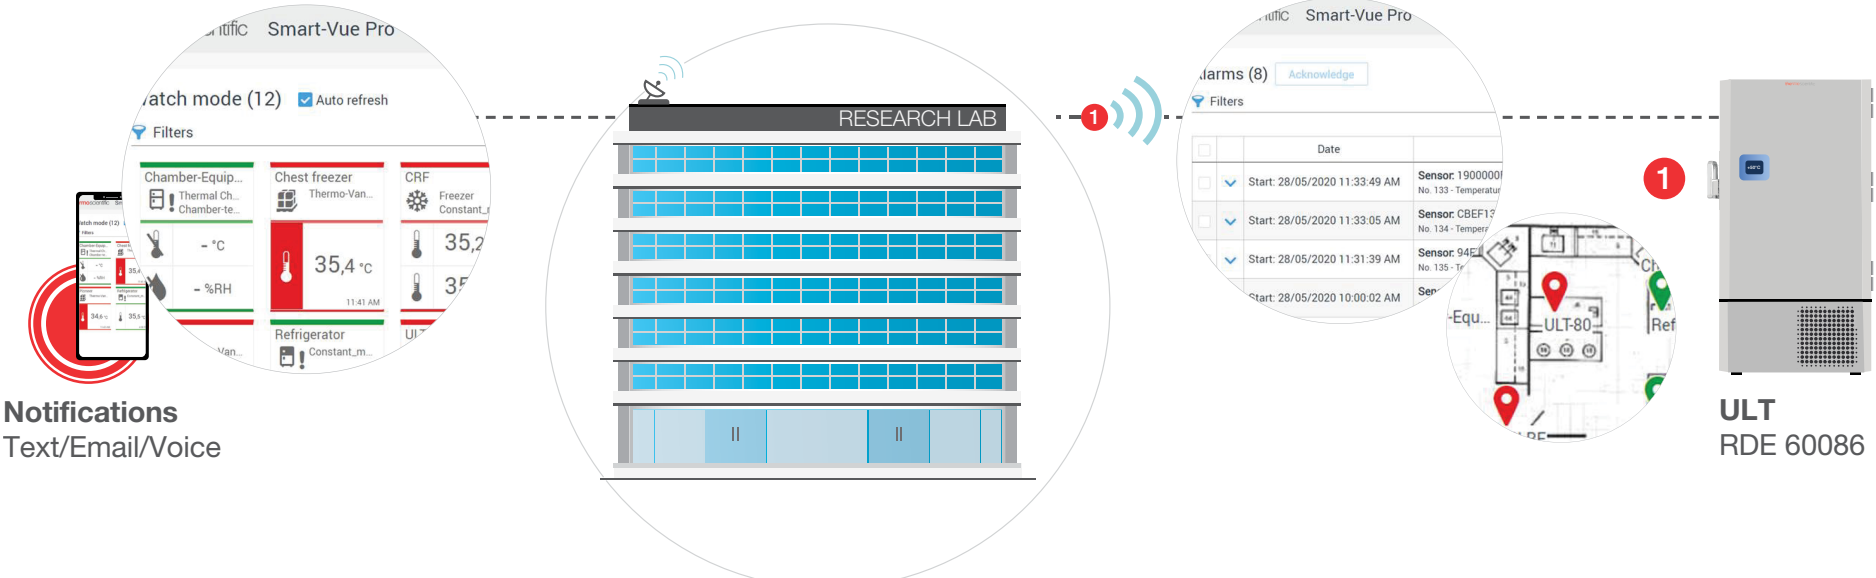

Lightning strike caused
1 m
people in England and Wales to lose power in August 2019³

Take a Vue on protection

Secure wireless network

LoRaWan (Long Range wireless Wide Area Network) covers large areas, requires minimal IT support and is scalable.

* On premises installation available on request.
