

Start-up and commissioning service

Thermo Fisher Scientific provides a start-up and commissioning service to ensure that your recently purchased analyzer is online and ready for use. As part of this service, our factory trained service engineers will review your analyzer and sensors, make any necessary adjustments, and optimize the device for your application. They also perform an initial calibration, a loop check, and train your operational and maintenance staff on device functionality and basic troubleshooting.

For immediate assistance, please call 1-800 225-1480, email wlp.processsupport@thermofisher.com, or visit thermofisher.com/contactservice

Benefits

- Service executed by factory trained service engineers
- Our field service engineers are experts on your specific application
- Installation is reviewed to ensure the device was set-up properly
- Device is calibrated and optimized for your application
- Backed by a service warranty that covers any rework that needs to be performed
- Basic training for your operational and maintenance staff
