

Biosafety cabinets

Efficiency, safety and value for routine applications

1300 Series A2
Biological Safety Cabinet

Sample and user protection

Containment, comfort and convenience

The Thermo Scientific™ 1300 Series Class II, Type A2 biological safety cabinets combine safety, energy efficiency and value for today's laboratory. The cabinet is energy efficient and provides both, personal and product protection from biological hazards and contamination. It can be connected to an external exhaust to allow work with volatile toxic chemicals that are sometimes used in the cabinet.

Containment

- Thermo Scientific™ SmartFlow™ technology automates airflow compensation
- Digital Airflow Verification (DAVe) alerts user to out-of-tolerance airflows that could compromise product and operator protection
- H14 HEPA filters remove airborne contaminants
- SmartFlow indicator displays performance status

Comfort

- Low noise level enhances user focus
- 10° sloped front for exceptional comfort and ergonomics
- Spacious work area with comfortable armrests
- Increased light intensity for a brighter work environment

Convenience

- Thermo Scientific™ SmartClean front window design to improve access to the work area for cleaning
- Thermo Scientific™ SmartPort™ convenience provides contained passage of tubing and cables into the work area
- Programmable UV light extends bulb life and saves energy

Intuitive control panel

Optional rear wall tubing clips

SmartPort convenience

Sloping front sash

8 or 10" front opening

Optional hanging shelf

Adjustable stand

Optional Thermo Scientific™
Ergolign saddle stool

Efficiency

- DC motors offer low energy consumption
- Night Set-Back Mode reduces airflow to 30% during low-usage periods
- Long filter life*
- Programmable UV light extends bulb life*

*Compared to previous models.

Basic controls and convenient features

Help simplify your daily work

Intuitive Control Panel: Displays valuable safety and performance data with constant read-out of downflow/inflow velocities

Airflow Read-Out & Hour Counter:

Clearly displays realtime performance data, including inflow and downflow velocities and hours of operation

SmartFlow Indicator:

Visually demonstrates power and capacity to maintain protection

Front Window Status:

Visual and audible alarm indicates whether front window is in correct working position

Night Set-Back Indicator:

Displays reduced speed operation when front window is closed

DAVe Airflow Indicator:

Audible and visual alarms indicate when airflow is out of tolerance

SmartPort convenience

Clean and safe routing for vacuum tubing and cables through the side of the biological safety cabinet (BSC) for improved organization and work efficiency.

SmartClean window design

Our unique window design easily lowers for thorough cleaning of inner surfaces and designed to protect users by maintaining inflow, even when the window is lowered.
