La Plaine Saint-Denis, March 25th, 2014

Dear Sir,

Following the positive agreement expressed the March 21st, 2014, by the Technical Board "Food microbiology" of the NF VALIDATION mark (NF102), I beg to inform you that the **extension of NF VALIDATION certification** is granted to OXOID Thermo Fisher Scientific Company for the following alternative analysis method:

Thermo Scientific SureTect *Listeria monocytogenes* PCR Assay

Certificate reference n# UNI 03/08-11/13, with end of validity 04-Nov.-2017

The extension concerns the validation of the version 1.2 of Thermo Scientific SureTect Software used with the Thermo Scientific PikoReal cyclers.

A further letter will mention full conclusions and possible reservations made by the Technical Board. If reservations are mentioned, I ask you to take them into account without any delay.

Yours Sincerely,

Managing Director
Florence MÉAUX

La Plaine Saint-Denis, December 5th, 2013

Dear Sir,

Following the positive agreement expressed the November 4th, 2013, by the Technical Board "Food microbiology" of the NF VALIDATION mark (NF102), I beg to inform you that the **NF VALIDATION certification is granted** to OXOID Thermo Fisher Scientific company for the following alternative analysis method:

Thermo Scientific SureTect *Listeria monocytogenes* PCR Assay

**Validated for the detection of *Listeria monocytogenes*
in all human food products and environmental samples
by comparison to EN ISO 11290-1**

Certificate reference n# UNI 03/08-11/13, with end of validity 4-Nov.-2017

A further letter will mention full conclusions and possible reservations made by the Technical Board. If reservations are mentioned, I ask you to take them into account without any delay.

Yours Sincerely,

Managing Director
Florence MÉAUX
