

More control and choice

Rely on Gibco™ products for your bioprocessing bulk liquid needs—in cell culture media, upstream buffers and additives, downstream purification buffers, and water for injection (WFI)

Choice: standard size offerings to expedite your order as well as custom designs and sizing

Consistency

We provide high-quality liquids in high-quality bioprocess containers.

Consistency of product is provided in everything we offer.

Standardization

We offer workflow solutions by providing standard film choices from bioprocess containers (BPCs), to single-use mixers (SUMs) and single-use bioreactors (SUBs).

Helps reduce possible contaminants and helps mitigate risk.

Product continuity

With integrated global locations for security of supply, we have proactively planned for the future, helping to minimize production interruptions for our customers.

Speed to market is crucial for success.

Media and process liquids

- Trusted Gibco™ media, feeds, and supplements for cell culture processes in any customized film
- Upstream buffers and downstream purification buffers
- USP/EP-tested WFI in 20 L and 200 L CX5-14 bioprocess containers

Bioprocess films

- Aegis™5-14 film
- CX5-14 film
- ASI 26/77

Manufacturing speed

- Non-GMP rapid media customization
- Pilot-scale prototyping
- Full GMP for scale-up

Global presence for manufacturing and supply

We enable product continuity through long-term supply planning.

- 1 Grand Island, NY**
 - Buffers, WFI, and other bulk liquids
 - Cell culture media and sera
- 2 Logan, UT**
 - BPCs
 - Bioreactors, mixers, and fermentor
- 3 Millersburg, PA**
 - BPCs
 - Mixers, disposable heat exchanger, and freezer containment system

- 4 Paisley, Scotland**
 - Buffers, WFI, and other bulk liquids
 - Cell culture media and sera
- 5 Cramlington, UK**
 - BPCs
 - Bioreactors, mixers, and fermentor
