

Discover with confidence

With over 490 kinases, the choice has never been easier

We're expanding our offering so you can expand your reach

- **New kinases**—over 70 new kinases added to our product portfolio and discovery services
- **Time-saving service**—with our Accelerated Data Delivery™ service, get up to 80% of your kinase profiling results in as little as 48 hours
- **Excellent support**—dedicated project managers ensure you get the most out of your profiling experience
- **Superior offering**—industry-leading portfolio of kinase targets, assays, and service options
