

TaqMan® Protein Assays Core Reagents Base Kit

Product No. **4448592**
Lot No. **1404035**
Expiration Date **22 Feb 2015**

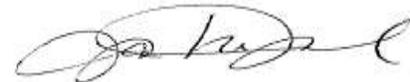

TaqMan® Protein Assays Core Reagents Base Kit contains key components required for performing a TaqMan® Protein Assay, except for the antibody-oligonucleotide assay probes and TaqMan® Protein Assays Fast Master Mix. The kit contains DNA ligase, protease, dilution and reaction buffers, and a TaqMan® PCR assay (primers and FAM™/MGB™ labeled probe), all of which are optimized for use with TaqMan® Protein Assays.

Quality Control Test	Result
<i>TaqMan® Protein Assays Core Reagents Base Kit is tested using the Forced Proximity Probe assay on an Applied Biosystems Fast Real-Time PCR system.</i>	Pass

For Research Use Only. Not For Use in Diagnostic Procedures.
