

Certificate of Analysis

S.O.C. Medium

Product No. 15544034
Lot No. 1863480
Date of Manufacture 11Jan2017

Gamma Irradiation Processing

Bottles containing S.O.C. Medium are dosed with gamma irradiation. The delivered doses during processing as measured over multiple coordinates must be within a minimum specified dose of 15.0 kGy and maximum specified dose of 30.0 kGy.

Results: Meets Specifications

Absence of Bacteriophage

To verify the absence of phage contamination, a mixture of 1.0 ml of S.O.C. and up to 300 µl of qualified lawn cells are added to LB top agar and poured over LB plates. After overnight incubation at 37°C, no plaques should be detected.

Results: Meets Specifications

For Research Use Only. Not for use in diagnostic procedures. If you have any further questions about this Certificate of Analysis, please contact Technical Services at 1-800-955-6288 (US and Canada) or 1-760-603-7200, x2 (all other countries).
