

Lyo-ready T4 Gene 32 Protein

Catalog Number A72123

Pub. No. MAN1000700 Rev. A

WARNING! Read the Safety Data Sheets (SDSs) and follow the handling instructions. Wear appropriate protective eyewear, clothing, and gloves. Safety Data Sheets (SDSs) are available from thermofisher.com/support.

Product description

The Invitrogen™ Lyo-ready T4 Gene 32 Protein is also known as single-stranded DNA binding protein or SSBP. Lyo-ready T4 Gene 32 Protein is produced from *E. coli* cells carrying a cloned bacteriophage T4 gene 32.

T4 Gene 32 Protein is useful in many commonly used molecular biology techniques, such as the following:

- Isothermal recombinase polymerase amplification reaction (RPA)
- Improving the yield and/or specificity of PCR
- Improving restriction enzyme digestion
- Enhancing T4 DNA polymerase activity
- Identifying single-stranded and double-stranded regions of DNA in electron microscopy studies
- Reducing the inhibitory effect of reverse transcriptase's on PCR

Lyo-ready T4 Gene 32 Protein in combination with Lyo-ready T4 UvsX Protein (Cat. No. [A72124](#)) and Lyo-ready T4 UvsY Protein (Cat. No. [A72125](#)) can be used in isothermal recombinase polymerase amplification reactions (RPA) to form recombination complexes that initiate amplification by Lyo-ready Bst DNA Polymerase (Cat. No. [A56655](#)).

Contents and storage

Cat. No.	Component	Concentration	Quantity	Amount	Storage
A72123	Lyo-ready T4 Gene 32 Protein	20 mg/mL	1600 µg	80 µL ^[1]	–25°C to –15°C

^[1] Custom vial sizes are available. To explore more customization options, go to thermofisher.com/mdx.

Limited product warranty

Life Technologies Corporation and its affiliates warrant their products as set forth in the Life Technologies' General Terms and Conditions of Sale at www.thermofisher.com/us/en/home/global/terms-and-conditions.html. If you have questions, contact Life Technologies at www.thermofisher.com/support.
