

Water testing

# Thermo Scientific Legionella Acid Buffer Solution

The convenience of a ready-to-use, compliant solution when preparing water samples for *Legionella* testing

## Compliant

Isolate and enumerate  
*Legionella* species according  
to EN ISO 11731 specifications

## Convenient

Save preparation time  
with a format that's ready  
for immediate use

## Efficient

Transport and store  
effortlessly with PET bottles  
and leak-proof screw tops

## Stay compliant, save time, and ensure accurate results with the Thermo Scientific Legionella Acid Buffer Solution

Conveniently prepare water samples when isolating and enumerating *Legionella* species according to EN ISO 11731 water quality testing specifications using Thermo Scientific™ Legionella Acid Buffer Solution.

Legionella Acid Buffer Solution provides the convenience of a prepared, ready-to-use solution for use in the process of identifying *Legionella* species in water containing high background flora.

### Benefit from:

- ISO 11731 compliance:**  
The solution meets the specifications for detection of *Legionella* species in accordance with ISO 11731
- Ready-to-use format:**  
Delivered ready for immediate use, saving the time spent preparing buffer solution. The 50-mL gradations also allow for easy measurement of the remaining content.
- Tamper-proof design:**  
All bottles have a tamper-proof seal. If undamaged, the seal with a heat-shrink band over the cap and neck guarantees the integrity of the product.
- Easy transportation and storage:**  
High-quality, transparent PET bottles have a leak-proof screw top made of PET and are lighter and more shatter-resistant than glass, making them better for handling in the laboratory as well as for shipping.
- Efficiency:**  
0.2µm filter-sterilized media is aseptically dispensed and filled into Gamma irradiated bottles in ISO Grade 5 conditions throughout, eliminating the need for additional sterilization by autoclaving.

### Ordering information

Product	Format	Shelf-life	Ordering code
Thermo Scientific™ Legionella Acid Buffer Solution	Ready-to-use bottle (pack of 4)	2 years	<a href="#">EB1375W</a>
