

**Thermo Scientific Quanti-Cult Plus**  
Quantitative quality control microorganisms

# Standard-setting quality

without compromising your safety

**Thermo**  
SCIENTIFIC

# Ensuring safety and confidence

Thermo Scientific Quanti-Cult Plus provides specific, reproducible numbers of viable microorganisms, derived from authentic, high-quality ATCC® cultures, in a safe, ready-to-rehydrate vial. Each vial delivers up to 10 inocula of 0.1 mL, each containing <100 CFU (colony forming units).

**Gel-preserved organisms in a vial cap allow for safe rehydration, eliminating the need to transfer organisms using sterile forceps.**

## Efficiency

Replace time consuming bench work associated with serial dilutions and stock culture maintenance with Quanti-Cult Plus™, and reduce your procedure time from 2–3 days to 15 minutes, saving time as well as money.

Implement the Quanti-Cult Plus simple step method, and eliminate serial dilutions in your quality control standard operating procedures.

# Every step of the way

## Safety

Reduce the risk of contamination and infection with a ready-to-rehydrate, two-vial system that requires zero organism handling.

## Confidence

Reach complete traceability with ATCC® License Derivative strains.

## Value

Consolidate ordering time and shipping costs by turning to one supplier for high-quality culture media and quality control organisms.

## Performance

Obtain enhanced viability and recovery with proprietary gel-preserved organisms that provide consistent counts for up to 8 hours after rehydration when stored at 2–8°C.

## Efficiency

Achieve accurate and convenient documentation with peel-off, transferable labels.

Stringent quality control ensures consistent microbiological evaluation of pharmaceuticals, for effective, high-performance products. For quality results you can depend on, backed by over 30 years of expertise in the pharmaceutical industry, trust Thermo Scientific quality control organisms.

- Over 25 Quanti-Cult Plus strains available, including convenient Growth Promotion and Water Bug sets for pharmaceutical, food, and water testing industries
- ISO certified, cGMP (current Good Manufacturing Practices) compliant, FDA registered
- ATCC® Licensed Derivative Program member

**Experts in microbiology**

# Globally available

Our goal is to provide the highest quality products, outstanding service, fast delivery, and excellent technical support to exceed your expectations.

## Customer Service

Our Customer Service Team is ready to assist you in placing your orders and providing the information you need when ordering quality control organisms.

## Technical Support

Our Technical Support Team is staffed with knowledgeable, highly-trained professionals ready to help you with technical information, including the use and expected results of quality control organisms.

For international customer support, visit [www.thermoscientific.com/oxoid-techsupport](http://www.thermoscientific.com/oxoid-techsupport)

For U.S. customer support, visit [www.thermoscientific.com/remel-techsupport](http://www.thermoscientific.com/remel-techsupport)

## Custom Quality Control Organisms

We will work with you to develop a custom quality control organism that suits your specific needs. Contact your local Technical Sales Representative to request more information.

Visit our Look-Up Tool at [www.remel.com/support/qclookup.aspx](http://www.remel.com/support/qclookup.aspx) and quickly browse by genus, species, and/or ATCC® reference number.
