

Thermo Scientific Sensitre AST System Training for Clinical Laboratories

Thermo Fisher Scientific is dedicated to ensuring that your laboratory is confident in its ability to utilize the Thermo Scientific™ Sensitre™ system portfolio of instrumentation and associated consumables to their full potential. Whether your laboratory has new staff, is onboarding a new plate, or has current staff who would benefit from a review of the platform, we offer a variety of virtual and in-person training modules.

Courses

Virtual SWIN Software Training Module

Description

- Plate set up through plate reading in SWIN
- Reviewing and finalizing results in SWIN
- Higher level overview of software and its functionalities

Location: Remote-based Length: 4 hours

Notes

Can accommodate up to 5 trainees.

Applicable for customers with a SWIN system.

Prerequisites: Plates must be set up and ready to be read the day of training.

Price: \$1,000

SKU: 526642

Virtual SWIN Software Training Module

Description

- Plate set up through plate reading in SWIN
- Reviewing and finalizing results in SWIN
- Higher level overview of software and its functionalities

Location: Remote-based Length: 8 hours

Notes

Can accommodate up to 10 trainees. Participants will be trained in groups of 5; the first group will be trained in the AM and the second group will be trained in the PM.

Applicable for customers with a SWIN system.

Prerequisites: Plates must be set up and ready to be read the day of training.

Price: \$2,000

SKU: 526643

SWIN Software Training Module

Description

- Plate set up through plate reading in SWIN
- Reviewing and finalizing results in SWIN
- Higher level overview of software and its functionalities

Location: On-site Length: 4 hours

Notes

Can accommodate up to 5 trainees.

Prerequisites: Plates must be set up and ready to be read the day of training.

Price: \$2,610

SKU: 526652

SWIN Software Training Module

Description

- Plate set up through plate reading in SWIN
- Reviewing and finalizing results in SWIN
- Higher level overview of software and its functionalities

Location: On-site Length: 8 hours (1 day)

Notes

Can accommodate up to 10 trainees. Participants will be trained in groups of 5; the first group will be trained in the AM and the second group will be trained in the PM.

Prerequisites: Plates must be set up and ready to be read the day of training

Price: \$2,970

SKU: 526656

Courses (continued)

Plate Set Up Module

Description

- Isolate selection
- McFarland creation
- Plate Dosing

Notes

Can accommodate up to 5 trainees. Applicable for manual Sensititre users or those that have an AIM and/or Nephelometer.

Location: On-site

Length: 4 hours

Price: \$2,610

SKU: 526644

Plate Set Up Module

Description

- Isolate selection
- McFarland creation
- Plate Dosing

Notes

Can accommodate up to 10 trainees. Participants will be trained in groups of 5; the first group will be trained in the AM and the second group will be trained in the PM.

Applicable for manual Sensititre users or those that have an AIM and/or Nephelometer

Location: On-site

Length: 8 hours (1 day)

Price: \$2,970

SKU: 526654

Plate Reading Module

Description

- Manual MIC selection
- Troubleshooting anomalies
- Identifying contamination

Notes

Can accommodate up to 5 trainees.

Applicable for manual Sensititre users or those that have an instrument for plate reading.

Prerequisites: Plates must be set up and ready to be read the day of training

Location: On-site

Length: 4 hours

Price: \$2,610

SKU: 526651

Plate Reading Module

Description

- Manual MIC selection
- Troubleshooting anomalies
- Identifying contamination

Notes

Can accommodate up to 10 trainees. Participants will be trained in groups of 5; the first group will be trained in the AM and the second group will be trained in the PM.

Applicable for manual Sensititre users or those that have an instrument for plate reading.

Prerequisites: Plates must be set up and ready to be read the day of training.

Location: On-site

Length: 8 hours (1 day)

Price: \$2,970

SKU: 526655

Courses (continued)

Plate Set up and Plate Reading Modules

Description

- Isolate selection
- McFarland creation
- Plate Dosing
- Manual MIC selection
- Troubleshooting anomalies
- Identifying contamination

Notes

Can accommodate up to 5 trainees.
Applicable for manual Sensititre users or those that have instrumentation

Location: On-site

Length: 8 hours (over 2 days)

Price: \$3,345

SKU: 526658

Plate Set up and Plate Reading Modules

Description

- Isolate selection
- McFarland creation
- Plate Dosing
- Manual MIC selection
- Troubleshooting anomalies
- Identifying contamination

Notes

Can accommodate up to 10 trainees. Participants will be trained in groups of 5; the first group will be trained in the AM and the second group will be trained in the PM.
Applicable for manual Sensititre users or those that have instrumentation.

Location: On-site

Length: 16 hours (2 days)

Price: \$4,065

SKU: 526628

Plate Set Up, Plate Reading and SWIN Software Training Modules

Description

- Isolate selection
- McFarland creation
- Plate Dosing
- Manual MIC selection
- Troubleshooting anomalies
- Identifying contamination
- Plate set up through plate reading in SWIN
- Reviewing and finalizing results in SWIN
- Higher level overview of SWIN software and its functionalities

Notes

Can accommodate up to 5 trainees.
Applicable for customers with a SWIN system.

Location: On-site

Length: 12 hours (over 3 days)

Price: \$4,080

SKU: 526630

Courses (continued)

Plate Set Up, Plate Reading and SWIN Software Training Modules

Applicable for customers with a SWIN system.

Location: On-site

Length: 24 hours (over 3 days)

Price: \$5,160

SKU: 526662

New Instrument Training Module

Description

New instrument training for customers adding 1 new instrument to an existing Sensititre system

- Instrument overview- parts and functionality
- Troubleshooting
- Maintenance
- Incorporation of the new instrument into the customer's existing workflow

Notes

Can accommodate up to 5 trainees.
Applicable instrumentation: Vizion, AIM, Nephelometer, standalone OptiRead

Location: On-site

Length: 4 hours

Price: \$2,610

SKU: 526653

New Instrument Training Module

Description

- New instrument training for customers adding 1 new instrument to an existing Sensititre system

Notes

Can accommodate up to 10 trainees. Participants will be trained in groups of 5; the first group will be trained in the AM and the second group will be trained in the PM.
Applicable instrumentation: Vizion, AIM, Nephelometer, standalone OptiRead

Location: On-site

Length: 8 hours (1 day)

Price: \$2,970

SKU: 526657

Courses (continued)

New Instrument Training Module

Description

New instrument training for customers adding an ARIS HiQ to an existing Sensititre system

- Instrument overview- parts and functionality
- Troubleshooting
- Maintenance
- Incorporation of the new instrument into the customer's existing workflow

Notes

Can accommodate up to 5 trainees.

Not applicable for customers that have an ARIS or ARIS 2X that are upgrading to an ARIS HiQ.

Location: On-site

Length: 8 hours (over 2 days)

Price: \$3,345

SKU: 526659

Price: \$4,065

SKU: 526629

Full Sensititre Suite Training Module

Description

- Plate set up and plate reading
- SWIN training
- Instrumentation training

Notes

Can accommodate up to 5 trainees.

Applicable for customers with an AIM, nephelometer, and at least one of the following: Vizion, ARIS, ARIS 2X, ARIS HiQ, standalone OptiRead

Location: On-site

Length: 12 hours (over 3 days)

Price: \$4,080

SKU: 526661
