

XPS Certified Solutions

Buyback options for your XPS systems

When it's time to upgrade your instruments, the removal of your current systems can be a difficult and costly process. Thermo Fisher Scientific offers the XPS Certified program to take the hassle out of removal. We will provide an assessment of your instrument and schedule removal.

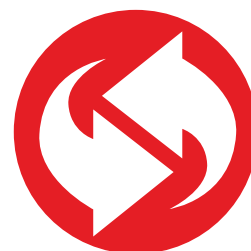

Accessibility

Give a second life to your instrument as part of our global life-cycle management efforts. Be a part of facilitating a circular economy.

Reliability

Enjoy peace of mind knowing that Thermo Fisher Scientific experts will provided you the best value for your instrument and the highest expertise in dismantling your system.

Sustainability

Contribute to the reduction of your environmental impact. Partner with us, and we will refurbish or recondition your instrument or recycle its parts.

We believe we have a responsibility to actively reduce our impact on the planet while continually seeking new ways to facilitate and accelerate discovery for our customers. As part of our commitment to sustainability, we will plant 10 trees in your name for each instrument we buy back from you.

Together, we are making a difference in the world.

 If you would like to learn more about the program, please visit thermofisher.com/xpscertained or contact your Account Manager.
