

Certificate of Analysis

Lipofectamine™ LTX Reagent

Product No. A12621
Lot No. 1266548

Caution

The safety and efficacy of this product in diagnostic or other clinical uses has not been established.

Sterility

Material is processed through a 0.2 µm filter.

Functional Assay

CHO-K1 cells are transfected with a *lacZ* reporter plasmid. The ratio of gene expression between the test lot and a reference lot must be 1.0 ± 0.15 . The peak activities of the test and reference lots must be within ± 0.1 µl.

Results

Meet all specifications.

For Research Use Only. Not for use in diagnostic procedures. If you have any further questions about this Certificate of Analysis, please contact Technical Services at 1-800-955-6288 (US and Canada) or 1-760-603-7200, x2 (all other countries).
